NATURE PUTS ON UNWELCOMED SHOW IN AMERICA

DECADE OF DRY NATION PASSED; STILL IS ISSUE

Prohibition Is The Most Discussed Matter In Congress

BULLETIN

Washington, Jan. 16—(AP)—A resolution to declare the Eighteenth Amendment inoperative on the ground that it has been ratified by only ten states, was introduced today by Representative Laguardia, Republican, New York, a wet.

The New Yorker in his measure reiterated the charge he made in the House yesterday that the states had ratified only a joint resolution of Congress to prohibit manufacture, sale and transportation of intoxicating liquors and that the Eighteenth Amendment itself never had been ratified by the requisite number of states.

BULLETIN

Washington, Jan. 16—(UP)—Repeal of the eighteenth amendment was proposed in a resolution introduced in the senate today by Senator Blaine, Republican, Wisconsin, a wet, on the tenth anniversary of prohibition.

(BY THE ASSOCIATED PRESS)

The close of the first decade of national prohibition found the anti-liquor laws figuring prominently in the news from widely separated sections of the nation.

At Washington Congressional committees prepared legislation to carry out recommendations for improved enforcement sponsored by President Hoover and the Law Enforcement Commission.

Chairman Wickersham of the commission issued a statement supporting the constitutionality of the proposal for trying minor prohibition cases before United States Commissioners.

House wets continued, Representative Linticum, Democrat, Maryland as their leader, and Representative LaGuardia of New York, challenged the validity of the eighteenth amendment.

Leaders of the Anti-Saloon League met at Detroit and began sessions with addresses declaring for "an aggressive, militant fight until country and city submit to the law."

To Use Machine Guns

An announcement was made at Lansing, that Michigan state police will use machine guns and tear bombs to prevent run running.

Governor Green of Michigan commuted the sentences of five prohibition law violators serving life terms under the state's former criminal code.

Governor Dillon of New Mexico recommended the use of the Army to patrol the borders as a test of the dry laws.

Governor Richards of South Carolina recommended to the state legislature that buyer and seller of liquor be made equally guilty with a jail sentence mandatory upon the second conviction.

Seventy-one persons were arrested in prohibition raids at Columbus, Georgia.

A federal judge at Jacksonville, Florida ruled customs and other officers must have definite knowledge that an automobile contains liquor before the vehicle can be searched.

At Oklahoma City, 102 persons charged with conspiracy to violate the dry law, were sustained in a motion for a bill of particulars.

By RICHARD L. TURNER Associated Press Staff Writer

Washington, Jan. 16—(AP)—National prohibition today celebrated its tenth anniversary in a setting of acrid dispute.

On Capitol Hill, the birthday of America's most discussed law found its friends occupied with plans for making its enforcement vigorously effective and its enemies arming for a mighty battle to come.

Congressional committees were busy formulating legislation requested by President Hoover and recommended

Teacher In Amboy Is Badly Burned

Miss Jane Money, teacher of household science in the Amboy township high school, is a patient in the Amboy hospital suffering greatly from burns she sustained Wednesday morning while crying her hair at the home of Mr. and Mrs. L. S. Griffith, with whom she rooms. She was using an electric drier to waterwave her hair over celluloid combs when the heat ignited the combs and in an instant her hair was a mass of flames. All the hair was burned from her head, she was badly burned about the face and she also sustained painful burns on her hands and arms in attempting to beat out the fire. Although she is in great pain her attending physician pronounces her condition favorable.

Dorothy Damned "Date Book" Thief

Detroit, Jan. 16—(UP)—Dorothy Damm, 15, damned the bandit who held her up Dec. 18, not because he took 75 cents but because he made off with a "little black book" containing the names and telephone numbers of her boy friends.

Miss Damm told of the crushing loss of the "date book" while testifying at the trial of Jack Bennett for the robbery. Bennett was found guilty.

SENATE VOTED DOWN HIGHER DUTY ON SUGAR

Fight Over Section Of Tariff Bill Is Ended In Vote

BY PAUL R. MALLON

United Press Staff Correspondent

Washington, Jan. 16—(UP)—The proposal to increase the tariff on sugar by 25 per cent from 1.76 cents a pound to 2.20 cents a pound was defeated in the Senate today.

An amendment proposed by Senator Pat Harrison, Democrat, Mississippi, was adopted eliminating the raise written into the bill by the Republican majority on the Senate Finance committee.

Harrison contended the boost would cost the American consumers \$54,000,000 more a year on their sugar bills while advocates of the committee action, including Chairman Smoot of Utah, claimed the increase was necessary to protect the lagging American sugar industry.

The vote was 48 to 38 for the Harrison amendment.

The low sugar tariff advocates won despite the defection in farm ranks, when eastern Republicans from consuming states supported the Democratic amendment.

The Senate action does not end the fight. The House adopted a rate of 2.40 cents a pound in the tariff bill which it passed last spring. The difference between that rate and the present law is now an issue to be ironed out when committees representing each house get together after the Senate finally passes the tariff bill. Compromises usually are effected in such cases and it is possible the bill may yet carry a substantial increase over existing law when it is finally passed and sent to the White House.

Former Dixontie Died In Chicago

Mrs. Arthur Penny this morning received the sad news of the death of her son-in-law, Herbert Simmonds, who passed away last night at his home in Chicago. Mrs. Simmonds was formerly Miss Irene Penny and with her husband resided in Dixon and Rockford for a short time. There were no details as to funeral arrangements, the body being held awaiting the arrival of the mother of the deceased.

WEATHER

YOU'LL NEVER GET IN WRONG WHEN YOU'RE IN THE RIGHT.

THURSDAY, JAN. 16, 1930

By Associated Press

Chicago and vicinity: Probably fair tonight and Friday; some cloudiness; colder tonight, lowest temperature zero to 5 below; continued cold Friday; winds mostly moderate northwest. Outlook for Saturday and Sunday: cold and unsettled, probably occasional snow.

Illinois—Fair tonight, colder in east and central portions; Friday increasing cloudiness and continued cold.

Wisconsin—Partly cloudy tonight and Friday; colder tonight in east and south portions; continued cold Friday.

Iowa—Mostly unsettled tonight and Friday; probably occasional snow; not quite so cold tonight in southwest portion and in south portion Friday.

LOCAL REPORT

For the 24 hours ending at 7 A. M. today: Maximum temperature, 18; minimum, 2. Clear.

TWO MISSING FLIERS SAFE, MOSCOW HEARS

Eielson And Borland Are Said To Have Landed In Siberia

Moscow, Jan. 16—(UP)—The Arctic Commission announced receipt today of an unconfirmed report from the radio station at Tinkiney that Captain Carl Ben Eielson and his companion, Earl Borland, had landed near Anguema river, 120 miles from Capt. North.

Eielson and Borland have been missing in the Arctic region for weeks. They were lost while attempting to rescue the crew of an ice-bound vessel.

The Arctic Commission's report said it was presumed the unverified information came from natives of the northern region. The Anguema river flows into the Arctic ocean near Bering Strait on the northeastern coast of Siberia.

Missing Since November

Eielson and Borland were reported missing in the ice fields off the Siberian coast in November. They had been attempting to aid the ice-bound schooner Nanuk, near North Cape.

Aviators have been attempting to search for the missing men from a base in Alaska, while the Soviet has prepared aerial expeditions to fly from the Siberian side. Boris Chukovsky, hero of the dirigible Italia rescue, has gone to Siberia to lead the Russian rescue expedition.

Chukovsky and his companions were scheduled to start operations near Cape North this week.

The Arctic Commission ordered that a search be started immediately.

Dog sleds and airplanes were ordered from Providence Bay to the position given in the report from Tinkiney. There were no details available.

HOPE FOR GRAHAM FADES

Las Vegas, Nev., Jan. 16—(UP)—The slight hope that Maury Graham, air mail pilot missing since last Saturday, might be found alive, was fading rapidly today.

The possibility that he was injured when his plane came down in a blinding snow storm, the severeness of the weather in the district where he must have struck and the limited supply of food he carried all tended to eliminate the expectation that he might be safe.

Weather conditions which made continued air search impossible early today seemed to wipe out the last chance of finding him alive.

TWO WEALTHY MEN FIGHTING FOR FORTUNES

Geo. J. Whelan And William Fox In Straights

New York, Jan. 16—(UP)—Two men who became multi-millionaires by supplying minor luxuries to the American nation were fighting today to rebuild and consolidate their fortunes.

They are George J. Whelan, who built the United Cigar stores into one of the best-paying concerns in the country, and William Fox, whose fortune is based on the desire of Americans to see motion picture shows.

Of the two men, Whelan probably has the hardest fight ahead, for in addition to suffering severe financial losses he has lost his health temporarily and for the last two months has been in a sanatorium.

Fox, a man who is accustomed to talk money in terms of millions, already has acted to form a securities firm to float a \$35,000,000 loan to satisfy unsecured creditors of the Fox Film Corporation.

Whelan's plight was not known to the general public until today when his attorney, Samuel Untermyer, authorized publication of an announcement to the effect that besides losing control of the United Cigar stores, Whelan's personal fortune was in danger of vanishing because of decreased stock values.

LaSalle Miner Is Killed By Train

LaSalle, Ill., Jan. 16—(UP)—John Larach, 67, coal miner, died in a hospital of injuries received when run over by an Illinois Central switch engine here today. The locomotive severed Larach's legs, and he died from loss of blood.

OLD PETE IN TOLLS

Grand Island, Neb., Jan. 16—(AP)—Grover Cleveland Alexander, major league baseball star, was fined \$170 in police court here today. He was charged with drunkenness, possession of liquor, and disorderly conduct. His companion, who gave her name as Mary B. Madon of St. Paul, Nebraska, was fined \$25 and costs.

NIGHT RACING AT AMBOY FAIR NEW PROPOSAL

Plan To Be Presented To Directors For Decision

A plan, which if adopted, would result in night horse racing at the Amboy fair grounds, is being discussed quite generally in this locality, and may be placed before the directors and officers of the Lee County Fair Association at their next meeting to be held in Amboy. Many lovers of horse racing are sponsoring the movement to bring about the trial of night horse racing during the annual fair week at Amboy this coming summer.

Night racing has been tried out and has proven a very successful venture in many localities and is said to be very adaptable to half mile tracks in the smaller communities. Electric lighting systems are installed, illuminating the track and instead of the racing matinee in the afternoon, the racing program is conducted in the evening. The equipment used to illuminate the track for night racing, according to sponsors of the movement, can be secured through the joining of several county fair associations in northern Illinois, and would be transported from one fair to another.

According to the plan as outlined, it is believed that much larger crowds would be attracted to the fairs by the illumination of the tracks for this purpose with a portable system of flood lights, would prove a valuable investment for the fair association, provided that a sufficient number could be interested in the venture.

ST. DATES FOR FAIR

Springfield, Ill., Jan. 16—(AP)—Gathered at their annual convention, forty members of the Illinois Association of Agricultural Fairs, this morning decided on dates for their fairs this fall, and registered them with Stillman J. Stannard, Secretary of the Association.

Only one date, that of the Illinois State Fair, to be held August 16 to 23 had previously been announced. One new fair to be held at East St. Louis, Sept. 10 to 14, was added to the list. Twenty-four fairs are represented here but at noon had not decided on dates. Those already decided were as follows:

Belvidere, Aug. 26 to 29; Princeton, Sandwich, Warren, Carmi, the same. Freeport, Aug. 27 to 31; Robinson, 12 to 15; Greenup, 19 to 23; Arthur, 27 to 30; Albion, 19 to 22; Lewistown, 12 to 15; Vienna, 19 to 22.

Mason, Sept. 1 to 5; Newton, 9 to 13; Jerseyville, 1 to 5; LaFayette, 2 to 5; Mendota, 9 to 12.

Aurora, Aug. 29 to Sept. 5. Bridgeport, Sept. 1 to 5; Henry, 17 to 20; Mt. Carmel, 9 to 13; Morrison, 1 to 5; Monaca, 17 to 19; DuQuoin, 1 to 6; Shelbyville, 2 to 6; Quincy, 2 to 5; Fairbury, 1 to 6; Aledo, 2 to 6.

Amboy, Aug. 20 to 24; Cacombe, 13 to 17; Pocatonia, 20 to 24; Pinckneyville, 12 to 15; Benton, 5 to 9; Taylorville, 26 to 30; Martinsville, 5 to 8; Griggsville, Aug. 12 to 15. Danville, Aug. 24 to Sept. 1.

Bill Collector Is Shot In Capital

Springfield, Ill., Jan. 16—(UP)—County and state authorities joined today in a search for Harry Merz, 40, who is alleged to have shot and seriously wounded Lee Conley, 29, a bill collector, following an argument over the disposition of some furniture at the former's home here yesterday afternoon.

Merz is said to have shot Conley after the latter had attempted to remove some furniture from his home. It was also said that Merz and Conley engaged in first fistfights. It was following this that Merz is alleged to have shot Conley.

Merz is said to have shot Conley after the latter had attempted to remove some furniture from his home. It was also said that Merz and Conley engaged in first fistfights. It was following this that Merz is alleged to have shot Conley.

Broke Ankle When He Kicked A Rival

Evansville, Ill., Jan. 16—(AP)—The Morgans and the Hirsches, rival hardware merchants, do not get along—according to the evidence—as amicably as might be desired.

Archie Morgan was to have appeared yesterday before Magistrate Barber to answer to a charge of disorderly conduct brought by one of the Hirsches brothers. Archie was absent, but his brother Arthur appeared.

"Archie couldn't get here," he told the court. "He's in the hospital with a fractured ankle—he kicked Hirsche so hard."

There may be more of this.

Half Of Schools In U. S. Are Firetraps?

Springfield, Ill., Jan. 16—(UP)—Half of the schools in the United States are fire traps, according to Harry K. Rogers, honorary chief of the Chicago fire department.

Rogers made this statement in the course of a search in which he urged that there be "no toleration of fire hazards," before a civic club here yesterday.

SO. CALIFORNIA ROCKED BY THREE EARTH TREMORS

Spread Terror Late Wednesday: Not Much Damage

Los Angeles, Jan. 16—(UP)—Two earthquake shocks that stopped clocks, telephone service and business in several southern California cities had added today to the woes of residents harassed by snow and freezing temperatures.

The first tremor came at 4:25 P. M. yesterday and lasted 10 seconds. It was followed by a seven-second shock at 4:35.

The 24-story city hall in downtown Los Angeles rocked and clocks stopped in the United States Weather Bureau Observatory. Patrons of theaters jumped into aisles when the tremors came. Hundreds fled into the streets from office buildings and stood in the rain until the disturbance ceased.

Pictures and dishes were shaken from walls in Beaumont and Banning, as well as in Pasadena and Riverside. Mail fell out of pigeon holes in the post office at Austin in the Mojave desert.

WORSE IN MOUNTAINS

Los Angeles, Jan. 16—(AP)—The earthquake which shook a large section of southern California last yesterday was found today to have registered more sharply in the inland mountain areas, although no appreciable damage was reported.

Two distinct quakes, at 4:25 and 4:35 P. M., were felt generally from the sea eastward to the Coachella valley, and from San Diego to the Mojave desert.

Dr. Harry L. Wood, seismologist of the California Institute of Technology at Pasadena, said his instruments indicated there were three tremors, the first, very faint, at 3:25 P. M.

The epicenter of the quake, Dr. Wood estimated, was approximately 197 miles from Pasadena. Its direction cannot be determined, however, until film from the sealed seismograph is developed. It appeared probable that the quake reached its greatest severity in sparsely populated or uninhabited mountain sections.

PUT EMBARGO ON PARROTS FROM SOUTH AMERICA

Psittocosis Makes Its Appearance In The Western States

New York, Jan. 16—(UP)—Preparations were being made today to place an embargo on all parrots from South America, where psittocosis is thought to have originated.

Dr. Shirley W. Wynne, Health Commissioner, announced that health department inspectors would be posted at all docks to watch incoming South American ships.

APPEARS IN WEST

Los Angeles, Jan. 16—(AP)—Declaring one man had died and two women were seriously ill here from a disease believed to be psittocosis, or parrot fever, Dr. J. T. Pomeroy, head of the Los Angeles County Health Department, today reiterated a warning that all recently purchased parrots must be quarantined.

The death last week of B. O. Johnson, at first ascribed to pneumonia, now is believed to have been caused by parrot fever, Dr. Pomeroy said. A parrot brought home by Johnson's son from Rio de Janeiro on Dec. 1, died a few days before Johnson became ill. Mrs. Johnson now is ill, apparently with the same disease.

Mrs. A. H. Stewart, who was taken to a Santa Monica, Cal., hospital a few days after her recently purchased parrot had died, is believed to be afflicted with parrot fever, the symptoms of which are similar to those in pneumonia.

HEALTH SERVICE RULES

Washington, Jan. 16—(UP)—People who have owned parrots for years need have no fear because of the current outbreak of psittocosis, although eight deaths and more than 40 illness have occurred, Surgeon General Cummings said today.

"There is no need for parrot owners to do away with their birds because of this outbreak," Cummings said.

Spread of the disease, coupled with benefits of the newspaper publicity, he said, should teach people a valuable lesson. There is no cause for hysteria.

He laid down the following rules to guard against infection: "Never feed a parrot by hand. 'Never fondle one unnecessarily—talk to it instead. 'Never kiss a parrot."

Terse Items of News Gathered in Dixon During Day

LICENSED TO WED

A marriage license was issued yesterday afternoon by County Clerk Fred G. Dimick to Wilfred W. Seovill and Miss Marie J. Mangan, both of Sterling.

C. C. MEETING

A meeting of the directors, advisory board and committee chairmen of the Chamber of Commerce will be held at the Chamber office Friday evening at 7:30 o'clock. It is announced the meeting will be important.

HELD TO GRAND JURY

Harold Selover was held to the grand jury under bonds of \$1,000 when he was arraigned before Justice William Terrill in police court yesterday afternoon on a charge of larceny. In default of the bond, he was remanded to the county jail.

GRANTED DIVORCE

Mrs. Mabel Welch was granted a divorce from Eugene Welch by Judge Harry Edwards in Lee County Circuit Court Wednesday afternoon on grounds of cruelty. Mrs. Welch was given the custody of their daughter.

WIFE MADE COMPLAINT

Henry Rambo of this city was arrested last evening after his wife had appeared before Justice J. O. Shaulis in police court and swore out a warrant charging assault and battery. Rambo furnished a bond in the sum of \$500 and his case was continued.

GLEE CLUB COMING

Eureka College's Male Quartette, dated to appear in the Dixon Christmas Church, Sunday evening, Feb. 2, and at several points in this part of the state, between the college semesters, will broadcast a program over WLS, Chicago, tomorrow afternoon, 4:30.

TO MOVE AFTER SALE

Louie A. Wiser, who lives on the Andrew Aschenbrenner farm near Lee Center, was in town on business today. Mr. Wiser will hold a sale on Tuesday, Jan. 21st, and will move immediately after his sale to the Joan Gilbert farm, which is two and one-half miles of Franklin Grove.

KINDERGARTEN MOVED

South side kindergarten pupils are no longer required to be taken in automobiles to the north side each day to attend classes. A permanent room has been fitted out in the South Central building where the kindergarten pupils of the south side are accommodated. Rooms, which previously to the opening of the new high school building, had been used by students in the south central building have been overhauled and the kindergarten classes are now using one of these.

Illinois To Seek Big Sum From Govt.

Washington, Jan. 16—(AP)—Illinois will seek \$7,000,000 from the federal government for the completion of the Illinois deep waterway between Utica and Lockport.

The Chicago Sanitary District has already spent \$71,000,000 on part of the project between Chicago and Lockport and the state is preparing to spend \$20,000,000 on the Utica-Lockport stretch. The state's expenditure with the \$7,000,000 to be sought from the federal government would finish the work and would provide a navigable channel from Lake Michigan to the Mississippi river, it was said.

Representatives of the state and the Sanitary District met with the Illinois Congressional delegation to draw up their request to the government yesterday. Decision was also reached to ask that the construction be declared a federal project. The board of Army Engineers will be consulted as soon as possible about the matter.

Ex-Convict Fears To Return To Pen

Waukegan, Ill., Jan. 16—(AP)—If sentenced to the Joliet prison, Arthur Reid, 43, convicted burglar, fears death; so great was this fear that he collapsed yesterday in his cell in the Lake county jail.

Two years ago, Reid was serving a term in the Joliet prison for attempted murder; he overheard some of his fellow-prisoners plotting to escape by dynamiting the walls and revealed the details to Elmer Green, then Warden.

For this he won his parole. But several weeks ago, Reid was arrested on a charge of stealing coal from a Soo line freight car. He was tried and convicted of burglary the punishment for which is an indeterminate sentence of one year to life.

"It's a death sentence," he cried in the court room after hearing the verdict read. "They'll kill me sure if I go back there."

Baby Born During Fire In Hospital

Chicago, Jan. 16—(UP)—At the height of a fire in Mercy hospital here today, a 10-pound boy was born to Mrs. Veronica O'Neill. While firemen battled the flames, physicians and nurses calmly went about the business of bringing the baby safely into the world.

A dozen babies in the maternity ward were moved away from the smoke. The fire started in the basement, destroying a number of screens. Smoke billowed to the fourth floor.

Six firemen were overcome by fumes from the burning screens.

PLAN HANGARS AT AIRPORT IN EARLY SPRING

Architects Commissioned To Outline Plans For Such

Robert Humphreys and M. R. Webster of the R. H. Humphreys architectural firm of Chicago were in Dixon today conferring with President Dement Schuler of the Chamber of Commerce in connection with the Dixon airport east of the city. The Humphreys firm specializes in the drawing of plans and preparation of specifications for airports and have built some of the largest flying fields in the country.

Plans for a hangar of suitable size, with a machine shop in connection and a service station are to be prepared for the Dixon airport and submitted to the committee on aviation of the Chamber of Commerce for their discussion and approval at an early date in order that contracts may be left for this work as early in the spring as is possible.

No building has been undertaken at the airport because of the condition of the ground. Several miles of drainage tile was installed at the field, has been purposely closed this winter to permit the refilled ground to settle properly. The committee on aviation plans to start active operations early in the spring to bring about the completion of a modern airport as rapidly as is possible next summer.

Home Of Ward Boss In Chicago Bombed

Chicago, Jan. 16—(UP)—Bombers selected the home of Morris Eller, City Collector and Thompson Republican boss of the "Bloody 20th" ward, as the object of terrorism early today for the second time, exploding a bomb that threw the politician, his wife and a Negro maid from their beds.

Neither Eller nor his wife was hurt. The maid was cut when showered with shattered glass.

The blast tore away a back porch, damaged the rear wall of the apartment house and destroyed glassware and plastering inside. Damage was estimated at \$5,000.

Eller's home was bombed in 1926 and two members of his family also have been targets of terrorists.

Women Storm U. S. Capitol For Court

Washington, Jan. 16—(UP)—A battalion of women "stormed" the Capitol today in the cause of the World Court.

Delegates to the Cause and Cure of War Conference here—550 of them—went to the Capitol on foot, in taxicabs and on street cars to plead with their representatives in the Senate to ratify the revised protocol for U. S. entry into the World Court.

The women, who carried petitions with several thousands of signatures urging entry, were from 11 national women's organizations, claiming a total of 12,000,000 members or a fifth of the feminine population of the country.

Instead of marching on the Capitol in one band, the usual practice hitherto, it was every delegation for itself. They buttonholed Senators here and there at the Capitol, recalling the old suffrage fight days.

President Hoover has approved the Root protocol, which is to meet the fifth Senate reservation on advisory opinions, but he is not expected to ask Senate ratification for a few months yet.

Fined Two Cents On Beer Selling Charge

Seattle, Wash., Jan. 16—(AP)—Morris Halverson, 29, a recent arrival from Canada, was fined two cents in federal court yesterday for selling home brew. The fine was declared the smallest ever imposed in a liquor case here.

Federal Judge J. Stanley Webster of Spokane extended leniency to the youth, who was reported suffering from a chronic ailment. Halverson told the court he knew it was against the

TODAY'S MARKET REPORTS

Chicago Livestock

Chicago, Jan. 15.—(AP)—Hogs 50-000, including 4000 direct; market mostly 10 to 20c lower; top 9.90; bulk 140-210 lbs 9.65 to 9.85; 220-270 lbs 9.40 to 9.65; choice 220 lbs weights up to 9.75; packing sows 8.00 to 8.75; butchers, medium to choice 250-300 lbs 9.10 to 9.60; 200-250 lbs 9.40 to 9.85; 160-200 lbs 9.60 to 9.90; 130-160 lbs 9.25 to 9.90; packing sows 8.00 to 8.75; pigs medium to choice 90-130 lbs 9.00 to 9.75.

Cattle 7000; calves 2000; strictly good and choice fed steers and yearlings very scarce; steady on shipping account; others weak and 25c lower; with beef cows and heavy heifers showing decline; medium yearlings and steers predominating; slaughter classes, steers good and choice 1300-1500 lbs 12.00 to 15.50; 1100-1300 lbs 12.00 to 16.25; 950-1100 lbs 12.50 to 16.50; common and medium 850 lbs up 8.75 to 12.50; fed yearlings, good and choice 750-1050 lbs 12.50 to 16.50; heifers, good and choice 850 lbs down 12.00 to 15.25; common and medium 8.00 to 12.00; cows, good and choice 8.00 to 10.75; common and medium 6.50 to 8.00; low cutter and cutter 5.25 to 6.75; bulls, good and choice (beef) 9.25 to 9.85; cutter to medium 7.00 to 9.50; vealers (milk fed) good and choice 13.00 to 16.50; medium 11.00 to 13.00; cull and common 7.25 to 11.00; stocker and feeder steers, good and choice all weights 10.50 to 11.50; common and medium 8.25 to 10.50.

Sheep: 12,000; market fairly active; strong to 25c higher; bulk fat lambs 13.75 to 14.00; best held around 14.25; fat ewes steady at 6.50 to 7.00; choice 70 lb feeding lambs 13.50; lambs, good and choice 92 lbs down 13.40 to 14.25; medium 11.75; ewes, cull and common 3.00 to 5.75; feeder lambs, good and choice 11.65 to 13.10.

Official estimated receipts for tomorrow: cattle 2000; hogs 21,000; sheep 14,000.

Chicago Produce

Chicago, Jan. 16.—(UP)—Eggs: market weak; receipts 7500 cases; extras firsts 41; firsts 37 1/2 to 38 1/2; ordinaries 35 to 36; seconds 28 to 33 1/2. Butter: market firm; extras 33 1/2; extra firsts 32 to 32 1/2; firsts 30 1/2 to 32; seconds 28 to 29; standards 33 1/2. Poultry: market steady; receipts, 3 due; fowls 26 to 26 1/2; springers 21 1/2; leghorns 20; ducks 16; geese 14 to 15; turkeys 25; roosters 18; broilers 30 to 32. Cheese: Twins 19 1/2 to 19 3/4; Young Americas 21. Potatoes: on track 204; arrivals 70; shipments 698; market trading very slow no account of the weather; very few sales reported; Wisconsin sacked round whites 2.50 to 2.65; Idaho sacked russets 3.00 to 3.25.

TEMBLORS, COLD WAVE, FLOOD IN ITS REPERTOIRE

(Continued from Page 1).

southward blast from the 40-below regions of the north.

SIX DEAD IN ROCKIES.

Denver, Colo., Jan. 16.—(AP)—The Rocky Mountain west still shivered today under the sting of the most protracted cold wave since 1924. Six deaths were caused indirectly yesterday by the bitter cold that wrapped the entire region in crackling frost. Temperatures that have been well below the freezing mark in Denver for nine days ventured to new low levels, climaxing the performance with a minimum of 7 below zero early today. Throughout Montana, Wyoming, Colorado, New Mexico and Kansas the cold held tenaciously.

Five Indians, all members of the same family, perished in flames that destroyed their cabin on the Crow Reservation south of Billings, Mont. It was believed the fire was caused by an overheated stove.

At Pueblo, Colo., Mrs. Abram B. Ball died from a fractured skull incurred when she was struck by an automobile that skidded at an icy street intersection.

NEWS CHURCHES

ANNUAL MEETING

The Dixon Christian Church held its Annual Report and Fellowship Meeting last evening. About one hundred of the members gathered for a beautiful covered-dish supper at six-thirty, and joined by others at seven-thirty, in the Church Auditorium, they heard presented in writing reports of activities of twenty-six of the various departments and organizations of the congregation.

Dr. Chas. E. Smith, newly elected Chairman of the Congregation, presided, and after a brief devotional service by the pastor, the reading of the reports took place, given in each case by some officer of the organization. Interspersed among the reports were the following numbers: Piano solo, Miss Florence Huffman; Reading, Mrs. J. E. Reagan; Vocal Trio, Miss Ora Floto, Mrs. C. C. Emmert, Mrs. Kate Morrill; Piano Solo, Mrs. M. C. Neer. Thirty-two new members were received during the year, and twenty-eight lost through death, transfers, etc., making the membership, Jan. 1, 1930, 460 resident members, and 70 non-resident. The minister's report called attention to the progress of stabilizing the work, and emphasized the appeal for general progress along all present lines of advance in this, the Pentecost year.

A summary of the financial showing revealed a total of new money raised, \$7,571.61, of which \$1,401.51 was for missions and benevolences. The dedication of the pipe-organ was the outstanding event of the year in material improvement, and much credit was given the Ladies' Aid Society for promoting this enterprise. By the help of a savings account for this purpose that had been accumulating for two or three years, this organization, assisted by C. C. Circle, could report last evening that only about \$700.00 indebtedness remains on the organ, and this will probably be met in full during 1930.

The year's committees, as named last night by the Chairman, are: Auditing—D. D. Stauffer, Mrs. Geo. Prescott, Florence Netzt, Arthur Hall, Wm. Rhodes.

Building and Grounds—W. C. Stauffer, Mrs. C. W. Mumma, Mrs. Chas. L. Rice, J. F. Kindig.

Finance—H. W. Stauffer, C. B. Rhodes, Ben M. Ralph.

Missions—Mrs. J. F. Kindig, Mrs. B. H. Cleaver, Mrs. J. E. Reagan.

Music—F. M. Johnson, Estella Rice, Gertrude Nesbit, Clinton Fahrney, Ora Floto, Mrs. Kate Morrill.

Prayer Meeting—Jas. G. Leach, Mrs. John Fellows, Mrs. W. G. Wells, B. H. Cleaver.

Sick and Relief—Mrs. W. C. Stauffer, Mrs. D. W. Bovey, Mrs. M. A. Orgiesen, Mrs. G. S. Parks, Mrs. O. D. Flaningan.

Social—Mrs. A. S. Derr, Mrs. C. C. Emmert, Ruth Leach, Mrs. J. E. Reagan.

Ushers—Wm. Lindsey, C. C. Emmert, Chas. L. Rice, W. Frank Cunningham.

Mrs. Mary Ryan of Harmon transacted business in Dixon today.

Mr. and Mrs. Benjamin Skinner of Freeport were here on business today.

CHARGES DORR JURORS TAKEN TO SPEAKEASY

Woman's Accusation Threatens Trial For Murder

BULLETIN.
Chicago, Jan. 16.—(AP)—The story of a woman court fan that she saw seven of the jurors in the trial of Samuel Howard Dorr for the murder of William O'Brien drinking beer and reading newspapers in a speakeasy last night collapsed when she identified in court chambers three of the men she had seen. They were not jurors.

Chicago, Jan. 16.—(AP)—A young woman today charged that seven members of the jury trying the murder case against Howard Dorr were taken on a liquor party by court bailiffs last night. Judge Harry B. Miller immediately began an investigation which probably will result in a mistrial of the murder case if the woman's charges are substantiated.

The young woman was identified as Miss Peggy Edman, who was closed with Judge Miller, state and defense attorneys and court attendants for some time this morning.

She is said to have accompanied one of the bailiffs who she charged escorted the jurors to a "speak-easy" for an evening of beer drinking. While at the beer parlor, she is supposed to have telephoned Barret O'Hara, attorney for the accused slayer, informing him of the party. O'Hara relayed the story to the judge.

The woman's purported story implicates Deputy Bailiff Joseph Blaha, who denied any wrong doing and contended he was off duty last night. Blaha said he had become acquainted with Miss Edman after obtaining a seat at the trial for her. He admitted he took her to a speakeasy last night.

Dorr is on trial for the murder of William O'Brien, street car motor-man with whose wife the state charges Dorr was intimate.

Miss Edman "positively identified" three of the jurors as among the seven she accused of attending the beer party. They were R. H. Thompson, Frank H. Vogel and Harry Dettering.

Blaha termed Miss Edman's story as "malignant untruths." He said she met him and another bailiff in the halls after the trial and went with them to the beer parlor, but said there was no one else with them.

Boy, Suspended By Teacher, Suicides
Corinth, N. Y., Jan. 16.—(UP)—Eugene Clothier, 14, who was suspended from Corinth high school yesterday because a jug of wine was found in his possession, was found dead at his home today with a bullet wound in his chest.

Eugene and another boy were caught drinking some of the wine while in school yesterday, according to Principal A. Beckman. The latter investigated and found that the youth had brought the wine to school. He suspended him and sent him home.

The boy seemed to be affected greatly by the principal's action and his distress was noted by his parents who were not told of his suspension.

This morning his father called him several times to prepare for school and when there was no response he went to the youth's room to investigate and found the body.

A coroner's report pronounced the death suicide.

GLENN SEES HOOVER.
Washington, Jan. 16.—(AP)—Senator Otis F. Glenn of Illinois conferred with President Hoover today on what he described afterwards as "an insignificant matter." The Senator said his ten minutes with the President had been taken up with discussion of a matter which he considered personal and of no public interest.

'MOUNTAIN DEW' INDUSTRY STILL MAKING PROGRESS

Improved Machinery Now Used By Mountain Moonshiners

BY PAUL SANDERS
(Associated Press Feature Writer)
Atlanta, Jan. 16.—(AP)—After ten years of prohibition, enforcement authorities say they find mountain moonshiners on the run—with improved running gear.

Gone, is the old stone jug, hidden in the stump, long a trademark of the hill fraternity. A portable tin container has usurped its place.

Changes have come to the entire "mountain dew" industry, if the north Georgia hills are an index, according to Howard P. Wright, deputy prohibition administrator here.

Firearms still flourish on many a hillside, but federal agents aren't targets any more, says Wright. The gun form the moonshiners' co-operative telegraph system to warn shiners that prohibition agents are guests of the countryside.

"In every moonshining district there's a lookout," Wright explained. "When he sees strangers who might be prohibition agents he runs out back of the shed and fires a gun in the air."

Sound Alarm
The still operators near do the same, and run. In a few minutes the alarm has spread through the whole district and every still is deserted.

"We seldom have any trouble, however, except to catch them on the run."

Stone furnaces stills are disappearing from the hills and copper, easily moved, is getting the play, said Wright.

Home distilleries that several years ago ran as high as 250 to 300 gallons capacity have been junked for smaller, more mobile outfits of from 50 to 75 gallons capacity.

Even the automobile, stranger to mountain moonshining in pre-prohibition days, has changed.

The runners tried large cars at the outset, but now small cars are in vogue, with loads seldom more than 50 gallons.

"That's because they can go farther into the hills with a little car and don't lose so much when we nab them," Wright said.

But meat and sugar remain the chief ingredients in the mountain "corn belt."

LONGWORTH CHEERED
Washington, Jan. 16.—(UP)—Speaker Longworth was cheered by the House today for his successful fight against President Hoover's proposal that a joint congressional committee be created to deal with the administration plan for reorganization of prohibition enforcement agencies.

The demonstration occurred during a speech in which Rep. Howard, Dem., Neb., congratulated Longworth on his stand. Howard proposed to put to a vote on his own responsibility a resolution of approval. Members of the House responded by shouting "ayes" and applauding the Speaker.

JANUARY'S GIFTS

WHEN winter masters the
skies,
And the tall estates of
song
Cast silent tracers
For snow to nest among;
And shadow is bluest where
The white drifts ape the swan,
And swordlike draws the air,
And sound of brook is none;

Then from the summer sleep
Our hearts wake to the frost
Wake as to horns and keep
The vow that was nearly lost.

And heroes walk that were men
With a serene might
And the strong mood floods again,
And clearer grows the sight

Of an earth new-tipped with sun,
And greener than we knew,
And the deeds that could not be
done
Are possible to do.

—T. Morris Longstreth.

Mrs. J. C. Absher Honors Mrs. C. F. Isenberger

Mrs. John Absher of Ashton, very
delightfully entertained a number of
Ashton's ladies at her home in Cres-
ton Friday afternoon with a 1 o'clock
luncheon and Rook party, the guest
of honor being Mrs. Clifford F. Isen-
berger, of Rockford.

The guests arrived at the Absher
home by autos in spite of the heavily
drifted snow which all but blocked
the roads and after a little time spent
in visiting, were seated at three tables
where a delicious luncheon was served
by the hostess and her mother, Mrs.
Arthur F. Gehant.
Rook was enjoyed during the re-
minder of the afternoon. Mrs. Ralph
Dean receiving first prize and Mrs.
Richard Sunday the consolation
prize. Those present were: Mrs. C. F.
Isenberger, Mrs. A. J. Tavenner, Mrs.
Charles C. Vogeler, Mrs. Harry Wis-
man, Mrs. J. A. Torrens and daughter,
Rosemary, Mrs. William F. Klingbiel,
Mrs. Isaac Trask, Mrs. E. C. Shippee,
Mrs. Richard Sunday and Mrs. Ralph
Dean.

Miss Phoebe Warner Celebrated Birthday

Miss Phoebe Warner, daughter of
Mr. and Mrs. Harry Warner, 1321
Third street, celebrated her birthday
Wednesday. She has been ill and
confined to her bed, although she is
now much improved. Relatives and
friends desiring to make the day a
memorable and happy one, sent her a
veritable shower of birthday greet-
ings, flowers and gifts, with their
best wishes for future merry birth-
days and best wishes for good health.
There was a tempting birthday cake
with candles, and the flowers and
bright greetings made the scene most
festive. Friends join in a wish for
speedy recovery for the convalescent.

Attended Birthday Party in Peoria

Rev. and Mrs. A. G. Suechting and
children returned last evening from
Peoria where they attended the sixty-
fourth birthday anniversary dinner,
for Mrs. S. Alpetter, mother of Mrs.
Suechting. There were present chil-
dren and grandchildren and other
relatives for the delightful occasion,
and Mrs. Alpetter received many nice
gifts with the best wishes of the don-
ors for future pleasant natal days.
Mrs. Alpetter has made many friends
in Dixon, during her frequent visits
to her daughter's home here.

Sterlings

FOR FRIDAY
Roast Beef or Salmon Loaf, Mash-
ed Potatoes, Buttered Carrots, Date
Pudding, Hot Rolls or Bread.

FOR DINNER
Grapefruit and Orange, Diced
Scrambled Eggs and Bacon
Buttered Toast and Coffee

Luncheon
Hot Roast Beef Sandwiches Pickles
Sugar Cookies and Apple Sauce
Tea

Dinner
Pork Tenderloins Escalloped Apples
Baked Potatoes
Bread Currant Jelly
Head Lettuce and Russian Dressing
Lemon Gelatin Dessert Coffee

Scrambled Eggs and Bacon for 4
3 slices bacon, cut in 1/4 inch pieces
4 eggs
3 tablespoons cold water
1/4 teaspoon paprika

Fry bacon slowly until crisp. Beat
eggs and add other ingredients. Mix
well and pour into hot bacon. Cook
slowly and stir constantly until egg
mixture becomes thick and creamy.
Serve at once and garnish with
parsley.

Hot Roast Beef Sandwiches
(Using Leftovers)

8 slices, thinly cut buttered white
bread
4 slices heated roast beef
1/2 cup gravy
2 tablespoons finely chopped
onions

Mix gravy and onions, cook until
hot and pour over the sandwiches.

Escalloped Apples

3 cups sliced raw apples
1/2 cup sugar
1 teaspoon cinnamon
2 tablespoons flour
1 cup water
3 tablespoons butter

Mix apples, sugar, cinnamon and
flour. Pour into a buttered baking
dish. Add water and dot with but-
ter. Cover and bake 30 minutes in
a moderate oven. Remove lid the
last 10 minutes of baking, thus al-
lowing apples to brown on top.

Russian Dressing

1/2 cup stiff mayonnaise
2 tablespoons chili sauce
2 tablespoons catsup
2 tablespoons chopped pimientos
2 tablespoons chopped sweet
pickles

1 tablespoon horseradish
Mix and chill ingredients. Serve
on any lettuce, vegetable or gelatin
vegetable salad.

SUNDAY TEA MENU

Mixed Ham Sandwiches
Cheese Sandwiches
Pickles Olives
Chocolate Cake Coffee

Miss Lucile Trump Is

To Wed This Summer

Miss Lucile Trump, daughter of
Mr. and Mrs. Andrew Trump of near
Peo, announced her engagement to
Russell Cooper of Detroit, Michigan,
at a party given Saturday evening
in the Trump home in honor of Miss
Beth Wallis, of Mt. Vernon, Iowa, a
friend of Miss Trump. The wedding
will be an event of the coming sum-
mer.

Lavender and yellow were the col-
ors carried out most beautifully in
the decorations of the dining room.
A two course dinner was served at
six-thirty to a company of young
ladies. Miss Trump is a senior at
Cornell College, Mount Vernon, Iowa.
Mr. Cooper is state secretary of
junior Y M. C. A. work in the state
of Michigan.

aculously appeared a few minutes
before she was to mount the hand car
graciously gave her a lift and she
made the trip in the caboose of the
freight train where a red hot stove
made her forget that it was twenty
above zero outside. Water, which
covered the road between Olney and
Newton, prevented her from making
the trip by motor, and there were no
passenger trains available at the hour
she was ready to leave.

Four Master Farm Homemakers Cited

Urbana, Ill., Jan. 16—(UP)—Four
mothers were given public recog-
nition as Master Farm Homemak-
ers in special ceremonies at the
thirty-third annual Farm and Home
Week of the University of Illinois
College of Agriculture here today.

The mothers who received the
award were:

Mrs. Harvey N. Moore, Carthage;
Mrs. Walter C. Rogers, Covell; Mrs.
Casper L. Mast, Quincy; and Mrs.
James H. Cox, Hudson. The state
now has fourteen Master Farm
Homemakers, this being the third
year that a group of women has
been selected for the honor.

The award consisted of gold stick
pins and were given by a national
farm women's magazine of St. Paul,
Minn., in cooperation with the
Home Economics Extension Service
of the University.

Here are how the four mothers
qualified to earn themselves a
homemaking championship:

Mrs. Moore—Converted an old
house into a modern attractive home
and an ordinary farm yard into a
beautiful, well planted farmstead.
She is president of a Parent-Teach-
ers Association.

Mrs. Rogers—Planned an attrac-
tive bungalow on the site where a
former home burned down. Helped
many young men start farming
through long-time loans and has
taught Sunday school for 33 years.

Mrs. Cox—Earns \$1,000 a year
making butter and spends part of it
for a subscription to one of the
national book clubs. A feature of
her home is its homemade play
equipment for her children.

Mrs. Mast—In addition to caring
for her home, helps husband and
farm hand at "haying time", orga-
nized 4-H poultry clubs, was president
of a Parent-Teacher Association
last year and sells \$1,000 worth of
food products a year.

Sixtieth Wedding Anniversary to Be Observed on Sunday

Rochelle, Jan. 16—An event of un-
usual interest will be the sixtieth
wedding anniversary, Sunday after-
noon, January 19th of Mr. and Mrs.
William A. Hunt, respected pioneer
couple at Ashton. They will keep
"open house" from two to five o'-
clock. Mr. and Mrs. Hunt were
married Jan. 19, 1870, at Lighthouse,
Ogle County at the home of Rev. A.
P. Hatch in a double ceremony with
Mrs. Hunt's sister, Maria Arnold
and Abijah Reed, Mr. Hunt's cousin.
Mrs. Reed is now living in Colorado
Springs but Mr. Reed died a number
of years ago.

Mr. Hunt, who is now 83, was born
in a log house situated in western
Lafayette township, Ogle county, and
has resided in Lafayette township 82
years, moving to Ashton a year ago.
His parents were Milligan and Nancy
Ann Hunt, who came here in 1846
from Indiana. Mr. Hunt has one
brother, Win Hunt, of Los Angeles,
Cal.; and one sister, Mrs. Emma
Wetzel of Ashton.

Mr. Hunt was a member of the
Appeals Board of Grain Inspection
under Governor Lowden, the first
farmer to serve in this position; has
served as supervisor of Lafayette
township 32 years and as school
trustee for 53 years. He has never
missed a session of the Ogle County
fair at Oregon and before retirement
engaged in farming and the raising
of purebred stock.

Mrs. Hunt, who is 80, was Melissa
Arnold, daughter of Mr. and Mrs.
Abijah Arnold. Her family came
from Prescott, Canada, and settled
on a farm near Lighthouse in 1842.
Mrs. Reed has one sister, Mrs. Maria
Reed, of Colorado Springs. A brother,
William Arnold died while serving
in the Union Army during the Civil
War.

This estimable couple have five
children: Mrs. Ada Griffith of Asht-
on; Mrs. Grace McDermont of
Seattle, Wash.; Charles, of Ashton;
Mrs. Olive Chadwick of Atlanta, Ga.
and Miss Eva of Ashton.

Mr. Hunt's father sent the
first freight to Chicago that was
shipped over this division of the
Chicago, Northwestern Railway. Mr.
Hunt was then a little chap. His
father attempted taking dressed hogs

Local Artist in Pipe Organ Recital

The Mendelssohn club of Sterling
gave an organ recital Sunday after-
noon, at the Presbyterian church in
that city, assisted by several vocal
artists, one of whom was Mrs. Lester
Wilhelm of our city. The Gazette in
commenting on the concert which
was of high excellence, gave Mrs.
Wilhelm much praise. Rev. Chester
M. Irwin, pastor of the church, gave
the invocation and pronounced the
benediction. Appearing on the pro-
gram with the organists who were
Miss Nova Morehouse, Miss Mabel
Phillips, Crawford Thomas and
Celeste Ward, were Mrs. Herbert
Gebhardt, formerly of Rock Falls
and Sterling, but now of DeKalb;
and Mrs. Wilhelm, of this city. The
writer of the article, Scott Williams,
praised the entire concert in his

to Chicago by sleds. They succeeded
in getting as far as what is now Oak
Park, when the snow went off. The
men who were building the Chicago,
Northwestern railway loaded the
hogs on their flat cars and took
them to Chicago.

Both Mr. and Mrs. Hunt, as chil-
dren, accompanied their parents to
see the first train go through. They
all saw Abraham Lincoln at Oregon,
Ill. Mr. Hunt in particular still
chuckles over seeing Mr. Lincoln's
tail, which was knocked off by the
branches of a tree as he climbed up
on a hayrack to speak. Mr. Hunt
also saw Lincoln's body lying in state
in Chicago after he had been assassi-
nated. At the time Mr. Hunt was
attending school in Mt. Morris and
has father rode on horseback the 20
miles or more from the farm to give
him the money to make the trip.

Both Mr. and Mrs. Hunt are ac-
tive for their years and are admired
for their fair dealings, genial hospi-
tality and friendly interest in their
wide circle of friends.

Polo Girl Bride
At Milledgeville

The marriage of Miss Pearl Stees
of Polo and Orville Martin of Mil-
ledgeville was solemnized at 6 o'-
clock Wednesday evening, Jan. 1, in
the Lutheran parsonage at Milledge-
ville. Rev. E. J. Johnson officiated
at the double ring ceremony.

Attending the bridal pair were Mr.
and Mrs. Clarence Straub. The
bride was beautifully attired in a
light blue flat crepe gown and car-
ried an arm bouquet of pink roses.
Mrs. Clarence Straub, sister of the
groom, was maid of honor and wore
a gown of pink georgette and carried
an arm bouquet of sunburst roses.
The groom and his best man, Claren-
ce Straub, brother-in-law of the
groom, wore the conventional blue.

Following the ceremony a wedding
dinner was served at the home of the
groom's parents, Mr. and Mrs. A. A.
Martin, to the bridal pair and their
attendants.

Mr. and Mrs. Martin will live for
the present with Mr. and Mrs. John
Bracken in Milledgeville where the
bride has been making her home for
the past three years while employed
at Frahm's Cafe. She will continue
to work there.

The bride is the daughter of Mr.
and Mrs. Charles Stees of Polo. The
groom is the son of A. A. Martin,
and is employed at the C. C. Chaffee
garage where he will continue his
work. They were chariwaried Thurs-
day evening at the Martin home.

HOUSEHOLD SUGGESTIONS—

BREAD CRUMBS—Omelets can
be stretched to serve several more
if a cup of bread crumbs and one-
half cup of scalded water poured
over them are added to each three
eggs.

TURKEY CROQUETTES—Do not
forget that the little pieces of turkey
can be utilized for croquettes which
the children will like almost as much
as drum sticks.

CRANBERRY SALAD—Cranberry
jelly, served with tiny balls of cream
cheese covered with nuts, makes a
delicious salad, served with mayon-
naise.

EASY PICKING—If you soak nuts
for an hour in hot water before
cracking, they will open much more
easily and the meats come out whole
with less trouble.

WOODEN SPOON—A wooden
spoon is better than an iron one for
mixing. The latter often scratches
the tin or nicks the porcelain of the
mixing bowl.

BREAD BRUSH—Use a soft brush,

such as is used for varnishing, to
brush the top of bread, rolls and
pastry with melted butter.

IODINE STAINS—Iodine stains
may be removed from the fingers or
clothing with strong ammonia water.
Use boiling starch water for goods,
the same as when removing ink
stains.

PALM CARE—If you wash the
leaves of palm plants in half milk
and half water they will shine beau-
tifully. It is also good for their
health.

STORING DECORATIONS—When
decorations from the holidays or
other festive occasions are put away,
each container should be marked
plainly and a list kept of where the
various boxes are located.

RAW LIVER—Raw calves' liver,
put through a grinder, seasoned well
and mixed with salad dressing,
makes a fine filling for toast sand-
wiches, especially if a slice of tomato
is added.

WHIPPED WHITES—A teaspoon
of cold water, added to whites of
eggs will cause them to whip easily
and quickly.

TIME SAVER—If you spread news-
papers over the table where you pre-
pare fowl or make pies or cookies,
they catch waste and save much
cleaning up.

CLEAN LEMONS—Before grating
lemons, be sure to wash them thor-
oughly. Often what appears as a
black stain is a collection of minute
insect eggs.

MOIST CHEESE—To keep cheese
moist, wrap in a cloth which has
been moistened in vinegar.

BROWN BREAD—You can cut
hot brown bread so that it will not
crumble by using a silk or linen
thread instead of a knife.

usual suave and delightful manner,
and each one of the artists separate-
ly. Each organist he praised im-
partially and their work on the
superb Dillon memorial organ. Of
Mrs. Gebhardt and Mrs. Wilhelm he
said:

Mrs. Herbert Gebhardt.

Though the recital was primarily
for the organ, the vocalists added
a highly enjoyable variety. Mrs.
Herbert Gebhardt was heard with
pleasure by her many friends who
have missed her voice since she and
her husband have made their home
in DeKalb. As Velma Scott, she not
only added appreciably to the qual-
ity of local programs during her
younger years when she lived in
Rock Falls, but her voice was an
attractive feature of Chautauqua
programs in many parts of the
United States, and after her mar-
riage, she was a favorite soloist for
several Sterling churches.

In her interpretation of the hymn,
"Still, Still With Thee," by Ward
Stephens, and the prelude from
"Cycle of Life," by Landon Ron-
ald, Mrs. Gebhardt displayed a ma-
tured richness of musical quality
that made her voice more pleasing
than ever. The organ accompani-
ment by Mrs. Roscoe Eades still fur-
ther enriched the two beautiful
songs.

Mrs. Lester Wilhelm.

It was a pleasure to again hear
Mrs. Lester Wilhelm of Dixon, who
had not appeared on a program in
Sterling for several years. As solo-
ist of the Presbyterian choir in
Dixon and as a frequent artist at-
traction on programs there, she is
well known to local music lovers
who regard the motor trip to that
city as an effort well worth while
when there is music of real worth
to be enjoyed. The studies she is
still pursuing in Chicago were evi-
denced in the sense of surety of a
voice of singular sweetness, ranging
from rich contralto to clear and
strong notes of mezzo soprano
quality.

In the "Ave Maria" from Verdi's
"Otello," Mrs. Wilhelm's voice dis-
played rare sympathetic expression,
and in the stirring recitative pre-
sentation of the words of John the
Baptist in "Repent Ye," by John
Prindle Scott, there was strength
and power. Miss Nova Morehouse's
accompaniment adjusted the organ
tones perfectly to the varying
themes of the songs. It is to be
hoped that Mrs. Wilhelm will be
heard here more frequently in the
future than in the past.

HOUSEHOLD SUGGESTIONS—

THE FAITH THAT LIVES.

A Memphis woman died the other day after keeping a 24-year tryst with the ghost of her dead son.

Her son, a young man of 21, died 24 years ago. During his life she had been wrapped up in him. When he died she refused to accept the fact of separation.

Every day thereafter, for 24 years, she set a place for him at the table in the dining room and drew his empty chair up to it. A vase of flowers always stood where his plate would have been. And every time that the family sat down to a meal she would glance at the son's place, smile, and say quietly, "He is with us."

This is a skeptical age—or at least everybody says it is—and most of us, very likely, will feel called on to say, in a superior way, "How touching!" Faith and hope such as this woman had are beyond us. We could not subsist on them for two weeks, leave alone a quarter of a century. So, quite naturally, we cannot escape the feeling that the woman was wilfully deceiving herself—building up a false, unreal world to shut out the desolation of reality.

But our wisdom does not go very far, at best. We are not nearly wise enough to be sure what is reality and what is not. It is just possible that this lonely mother, putting flowers at an empty place and tossing a serene, "he is with us," at a vacant chair, knew more than we do.

For the world, after all, is full of ghosts. We have all seen them and communicated with them. They are not the hooded and sheeted wraiths of tradition, and they do not infest lonely houses, or tap on tables, or wait at windows to frighten children. They haunt the secret corridors of our own hearts, and we could not live without them. For the past is never gone forever. It is merely in the background. We can return to it, now and again, guided by the phantoms that we carry with us.

They make life livable, these ghosts. A pair of worn baby shoes carefully saved in a bureau drawer; an old photograph that preserves a face that has been dust for decades; a homely bit of household furniture that bears the imprint of a former user; a vase of flowers at a vacant place at the table—these are their outward signs. They sustain us and make us brave.

It may be that we live in a skeptical age. Our current philosophy has little consolation to offer the man who has lost a loved one. Yet we need not be too lonely. We have our ghosts, our reality of things unseen, our wisdom that goes beyond the things that can be touched and handled. And something, we think, that cannot lie tells us that we are right.

A LESSON IN CIVICS.

The sad financial mess in which the city of Chicago finds itself today is traceable directly to the dismal political entanglements in which the city has permitted itself to become bound.

Rotten politics is not only an offense to public morality, it is, in the long run, fearfully expensive. Padded payrolls, inefficient management, favoritism and graft are chickens that eventually come home to roost.

In the last two elections Chicago took steps to restore decent government. Unfortunately, the process is a long and painful one. Driving out a political gang that is once firmly entrenched takes time. So does the process of recovering from the ills that such a gang always breeds.

For the moment there is little that Chicago can do except stew in its own juice. It is paying a high price for an elementary lesson in civics.

Physicians asked to give their ideas on the new long dress styles said: "Unhealful"; "Unfortunate"; "Deplorable"; "An Unmitigated Evil"; and "Unhygienic." All of which probably will help a great deal to popularize the aforesaid long dresses.

At a recent livestock show in Kansas City, "the Ideal Hog" was exhibited. The dispatch didn't say where the animal was found, but it's safe to guess it was the man who sits in the Pullman smoking early in the morning while 12 are trying to shave.

No two objects in the universe can be more than 540,000,000,000,000 miles apart, science has discovered. Surely the law doesn't always hold, however, as any two men who pick All-America football teams must be farther apart than that.

Henry Ford has bought a western gold mine, says a newspaper dispatch. That makes two he has now, including the one in Detroit.

"An Era of Chance," says a headline over a story describing activities in Wall Street. The word left out was "fat."

(READ THE STORY, THEN COLOR THE PICTURE)

The sun kept blabbing very hot. It shouted, "Well, as like as not, 'twill soon be fairly dry 'round here and you can ride your bike. I like to help you Tinymites so you can ride and see the sights. I hope I'm doing something that you all will really like."

"Oh, to be sure," one Tiny said. "We're glad to have you go ahead and make the snow piles disappear. We've had enough of snow. It's funny, when your heat is felt, how all the snow just has to melt. I guess you are the only one with power to make it go."

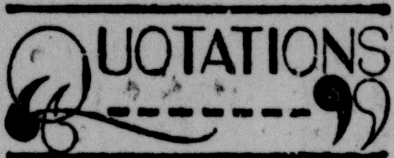

Their snow house soon was out of sight. "Oh, my," cried Clowny. "It's a fright to think that we all worked so hard to build that little house." "Hush, hush," snapped Scouty. "Do not kick! It all will turn out very slick. The best thing you can do is keep as quiet as a mouse."

By now most of the snow was

gone. The Tinies saw wide spreads of lawn. "Ah, this is so much better," shouted Coppy, with a grin. "I love the pretty green grass so much better than the chilly snow. If we are going to ride our bike 'tis time that we begin."

Just then the sun cried out: "Good-bye." A cloud then floated over the sky, and Mister Sun was out of sight. The Tinies waved their hands. The Carpy shouted, "Come on, bunch. Just follow me. I have a hunch that we'll enjoy a ride into some brand new wondrous lands." The happy tribe began to shout. Then, suddenly, one cried, "Look out! A monstrous tree is tipping and I think it's going to fall. Now comes new cause for us to fret. Don't go up to our bike just yet. The tree is falling right that way. It isn't safe at all."

(A woodpecker helps the Tiny mites in the next story.)

It is estimated that there are more than 10,000 mineral springs in the United States, of which nearly 1000 have produced waters in commercial quantities.

In the Rocky Mountains of Colorado alone there are 40 peaks exceeding 14,000 feet elevation.

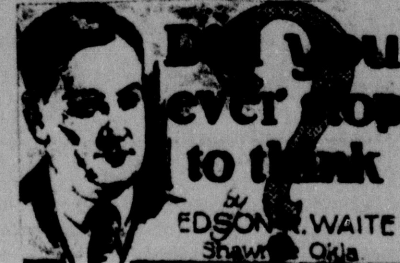

Rich in Eggs

CRESCENT EGG NOODLES add a zest to soups, and they are fine with gravies and hot meats.

A real treat on a cold day and then they cook so quickly it takes no time at all to prepare them.

TUNE IN ON WOC FRIDAYS-4PM. CRESCENT HOUR.

Edson R. Waite, Shawnee, Oklahoma

THAT the democracy of American business is proven again and again by the conspicuous success of men who started their careers at the foot of the ladder and climbed to success by sheer force of character and determination.

An outstanding example of this has just occurred in the election of Herbert D. Ivey to the presidency of the \$135,000,000 Citizens National Trust & Savings Bank of Los Angeles.

A little more than twenty-six years ago, Herbert D. Ivey began to work for the Citizens National Bank as a messenger. He was seventeen years old and had just come to the city from San Antonio, Texas.

He brought with him no special advantages or family pull, but both he and his two brothers entered banks in Los Angeles, and all three have risen to high positions.

In the intervening years H. D. Ivey worked his way up, becoming successively bookkeeper, teller, cashier, vice president and president.

In his spare time he studied and graduated in the American Institute of Banking and helped the men under him to learn more about banking.

When in June the president of the bank died suddenly, the directors without delay turned to the man who had been loyally working for the best interests of the institution for twenty-six years and entrusted him with the responsibilities of the high position.

There is always plenty of room at the top for those who have brains and determination.

THE ELEVATION OF H. D. IVEY TO THE PRESIDENCY OF THIS LARGE AND INFLUENTIAL BANK IS ANOTHER OUTSTANDING EXAMPLE OF HOW A COUNTRY BOY CAN START AT THE BOTTOM AND RISE TO THE TOP.

A THOUGHT FOR TODAY

If, when evil cometh upon us, as the sword, judgment, or pestilence, or famine, we stand before this house, and in thy presence, (for thy name is in our house) and cry unto thee in our affliction, then thou wilt hear and help.—II Chronicles 20:3.

If evil is inevitable, how are the wicked accountable? Nay, why do we call men wicked at all? Evil is inevitable, but it is also remediable.—Horace Mann.

It is estimated that the Mississippi river carries into the Gulf of Mexico more than a million tons of sediment every day, and that it would require 1000 trains, each made up of 45 cars of 25 tons capacity, to transport an equal amount of silt and sand.

The Taiga forest, extending for more than 4000 miles across Siberia, is one of the greatest forest areas in the world.

CONSERVATION OF FERTILITY OF SOIL THEME

High Tribute Is Given
Late Dr. Cyrus H.
Hopkins Today

Urbana, Ill., Jan. 16.—(AP)—How to conserve one of their "most priceless gifts"—fertile soils—today held the interest of farmers attending the agronomy sessions of the thirty-third annual Farm and Home Week at the College of Agriculture, University of Illinois.

That the state's rich soils are somewhat of a gift was brought out by Dr. R. S. Smith, chief of soil physics. Those countless persons who take for granted the soils covering the state's broad plains are far from the truth in believing that those soils always have been here and will remain as they now are to the end of time, he pointed out.

"Illinois is indebted to her neighbors to the north for much of the rich material from her soils have been developed. Some of this material was carried in by glaciers which moved across the state from the north and much of it was blown from the stream valleys onto the uplands. This latter deposit is known as loess and is a product both of glacial and of stream action.

"The soils which have since developed from these deposits range in age from very youthful to old. The old-age soils have passed their prime and the young soils will not be allowed to develop normally because of the destructive interference of man. The destructiveness of man's interference may be lessened by employing well known methods of soil conservation."

High tribute to the soil conservation work of the late Dr. Cyril G. Hopkins, a former head of the agronomy department, College of Agriculture, University of Illinois, was paid in an address by Mr. M. P. Miller, chairman of the department of soils of the University of Missouri.

"If Dr. Hopkins had done nothing more for corn belt agriculture than to establish the very important idea of a permanent agriculture his life would have been a fruitful one. In no state are the farmers so thoroughly familiar with this idea as in Illinois. The general principles of the Illinois system of fertility maintenance, as voiced by Dr. Hopkins, have become familiar throughout the corn belt and his work lives on. These principles, with some modification, form the basis of programs of fertility maintenance in every corn belt state. There is little likelihood that any radical changes in these general principles will be recommended during this generation.

"The most important single principle in a rational system of soil management is selection of proper cropping systems. Illinois farmers, as well as other corn belt farmers, have in the past grown a larger acreage of corn and a smaller acreage of legume crops than is consistent with fertility maintenance. No system of cropping is permanently profitable that does not provide for a good legume crop, preferably a sod legume, once every four or five years.

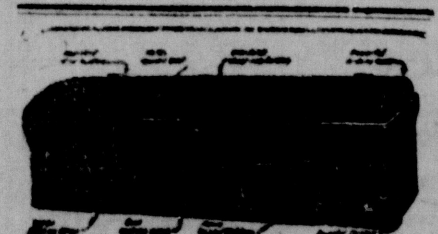

"Even the best cropping system, where everything is removed, allows continuous soil deterioration. Crop residues must be returned to the land.

"Generally speaking, high type systems of agriculture require lime and there is no immediate prospect of abandoning this general principle.

"Finally, no system of agriculture is permanent in which some commercial plant food is not used. On those farms where good systems of cropping are practiced and where the system is one of general farming or livestock farming, phosphate commonly is the only purchased material necessary. However, as agriculture becomes older and somewhat more intensive and particularly as specialized systems of farming develop, the use of potash is becoming more common. In view of recent developments in the production of synthetic nitrogen fertilizers, nitrogen also may be used in abundance as time goes on."

DON'T WANT MUCH FORTUNE TELLER: Do you want to know about your future husband? **VISITOR:** No. I want to know something about the past of my present husband for future use.—Passing Show.

Have you ever used Healo, the best foot powder in the market?

The flight of time can not erase the obligation to provide complete protection for the remains of loved ones. On the contrary, every tick of the clock emphasizes the fact that this obligation can be fulfilled only at the time of burial.

Positive and permanent protection can be secured without inconvenience, and without unreasonable expense by insisting on the Norwalk Vault.

To know that you are securing the advantages of a Norwalk Vault you must insist on this Vault being supplied. Leading funeral directors furnish the Norwalk Vault and give with it a Fidelity Certificate proving that it is genuine.

IMPRISONMENT HELD CAUSE OF BABE BORN DEAD

Salinas, California, Is
Stirred: Women
Plan Action

Salinas, Calif., Jan. 16.—(UP)—Mrs. Sue Brown was free but heart-broken today after she had been hastily transferred from the county jail to a hospital where her baby was born dead.

Four separate moves to investigate circumstances under which she was sent to jail for possessing three cases of beer were under way as the Superior Court accepted notice of appeal and her fine of \$272 was paid by a San Francisco newspaper.

Monterey county citizens were indignant over her and her husband's charges that the young expectant mother was "railroaded" to jail, and that the excitement and humiliation of the proceedings and confinement were responsible for the death of her baby, prematurely born Tuesday.

Arthur Brown, the husband, said he planned to press charges against officials responsible for his wife's imprisonment.

A group of citizens planned to lay the case before the county Board of Supervisors.

Bay counties club women stated they would demand investigation of the case by Governor C. C. Young.

The Business & Professional Women's Club of Salinas, and other civic and religious organizations were in demands for official inquiry into the entire proceedings.

Seek Two Sisters For Rum Running

Stratford, Pa., Jan. 16.—(AP)—Two sisters, still in their teens, were sought by police today as rum runners.

Warrants for the arrest of Marie Duttner, aged 19, and Violet, 17, were in the hands of Police Chief Nugent who declared the girls had been engaged in running liquor by automobile between Philadelphia and Harrisburg. He said suspicion was directed to them when their liquor-laden car collided with another machine near here Tuesday.

DECADE OF DRY NATION PASSED; STILL IS ISSUE

(Continued from Page 1.)

by his Law Enforcement Commission as a means of reducing dry law violations, while the subject as a means of reducing dry law violations, while the subject of debate in the House was a measure replete with potential strife.

This was the annual appropriation bill for the Treasury Department. Included in it were provisions for the financial upkeep of the prohibition enforcement unit and the Coast Guard, both of which have been under attack in recent weeks.

Senate On Tariff
The Senate was plodding along with the tariff bill and its time by agreement and devoted to that measure, but its members were, nevertheless, keenly alert to the developing phases of the prohibition discussion. Of particular interest to many of these was a statement from Chairman George W. Wickersham of the Law Enforcement Commission.

Some members of congress had questioned the constitutional validity of the Commission's proposal that minor violations of the dry laws be tried before any United States Commissioner, thus diverting many cases from the overtaxed federal courts. They regarded it as possibly an invasion of the constitutional right of trial by jury.

Wickersham, who is a former Attorney General, declared his proposition entirely constitutional and an extension of the practice in vogue in most states which misdemeanors are tried by magistrates.

A nominating committee of the House "wets" meanwhile agreed to continue Representative J. Charles Linthicum, Democrat, Maryland, as the leader of its unofficial group, which numbers about 100.

LaGuardia To Fight
Representative LaGuardia, Republican, New York, threatened to bring debate on the Treasury supply bill to a halt with a point of order arguing that the eighteenth amendment has

Itching PILES Quick Relief
Instant, soothing relief or money back. Use PAZO OINTMENT. Try it for Itching, Blind, Bleeding or Protruding Piles. Successful in most stubborn cases. Ask for PAZO OINTMENT. In convenient, handy tubes with pile pipe attachment, 75c; or in tin box, 90c.

The treatment is frequently due to memory of having seen a doctor ad- vise the same treatment in what is considered a "similar case." If par- ents and patients can be prevailed upon not to start any treatment that might be harmful until a de- finite diagnosis has been made many errors of home treatment will be avoided.

Everyone knows of the frequency with which stomach aches appear in children, and how common is ab- dominal pain in grownups. Most people wrongly think that the best thing for a stomach ache is a good purging which is promptly and easily provided. But a diagnosis of "stomach ache" gives no more ex- planation as to its cause than does an auto mechanic who tells you there is an "abnormal noise" in your misbehaving car; and you should no more consider speeding up the bowl than you would let the auto mechanic throw the throttle wide open and race the engine for several hours as treatment for the car's illness. This, however, is so frequently done that one rarely has an opportunity to congratulate a mother on NOT having given a "good big cathartic."

The fallacies of giving cathartics in "stomach aches," most of which are not stomach aches at all, are manifold aside from the "racing of the motor" and actually inducing pain. This racing and scraping may be enough to rupture an ap- pendix which might otherwise pass safely through its acute inflamma- tory stage, and surgical conditions such as intussusception (which is a form of intestinal obstruction) strangulated hernia, etc., might be mentioned as being made worse by the routien cathartic.

Purgation results in watery stools and marked loss of body fluids which are as necessary as sufficient oil in your automobile. This is particu- larly true in cases of pyelitis and many cases of stomach ache, particularly in little girls where the trouble is not in the abdominal cavity proper but is behind it in the urinary tract. Other cases outside the abdomi- nality, but for which a purge is of- ten given are due to trouble in the chest, and many pneumonia patients are robbed of their body fluids so necessary with their high fevers. Yet who would drain a motor of its oil with the radiator hot? Closely al- lied to the above condition are the ordinary upper respiratory infec- tions, colds, influenza, grippa, etc., which not uncommonly have asso- ciated a "stomach ache."

This entreaty is for less universal use of cathartics, and if its plea is followed by the public, much harm may be avoided in the treatment of undiagnosed "stomach aches." Try such harmless procedures as the giv- ing of a small enema, application of ice bag or hot water bag. If this does not give relief, then it is only fair to find out what is wrong with the human mechanism, for there is much evidence to indicate that the mere giving of a purge for stomach ache has done more harm than good.

\$175,000 FIRE IN VILLAGE
Bloomington, Ill., Jan. 15—(AP)—A fire that destroyed the west side of the business district of Elsworth, a small village near here, left the village without food supply, tele- phone service or bank today.

The town was protected only by a bucket brigade and destruction of the telephone exchange prevented an appeal for outside help. Eight buildings were damaged at a loss es- timated at \$175,000. Volunteers struggled in the zero weather to prevent the fire from spreading to the east side of the town.

Alvin Bane, volunteer fireman, was injured about the face and arms when he fell from the top of a build- ing. The fire is thought to have started from an overheated stove in a restaurant.

"This is THE VERY PAINTING of your fear"
(Shakespeare, 1564-1616)

AVOID THAT FUTURE SHADOW*
By refraining from over-indulgence

You men who would keep trim and fit . . . you women who covet the tantalizing curves of the truly modern figure—when tempted to do yourself too well, light a **Lucky** instead. Be moderate—be moder- ate in all things, even in smoking. Eat healthfully but not immoder- ately. When your eyes are bigger than your stomach, light a **Lucky** instead. Coming events cast their shadows before. Avoid that future shadow by avoiding over-indul- gence if you would maintain that lithe, youthful figure.

Lucky Strike, the finest Cigarette you ever smoked, made of the finest tobacco—The Cream of the Crop—"IT'S TOASTED." Every- one knows that heat purifies and so "TOASTING" not only re- moves impurities but adds to the flavor and improves the taste.

"Coming events cast their shadows before"

"It's toasted"

*Be Moderate! . . . Don't jeopardize the modern form by drastic diets, harmful reducing girdles, fake reducing tab- lets or other quack "anti-fat" remedies condemned by the Medical profession! Millions of dollars each year are wasted on these ridiculous and dangerous nostrums. Be Sensible! Be Moderate! We do not represent that smok- ing **Lucky Strike** Cigarettes will bring modern figures or cause the reduction of flesh. We do declare that when tempted to do yourself too well, if you will "Reach for a **Lucky**" instead, you will thus avoid over-indulgence in things that cause excess weight and, by avoiding over-indulgence, maintain a modern, graceful form.

TUNE IN—The Lucky Strike Dance Orchestra, every Saturday night, over a coast-to-coast network of the N. B. C.

FIRST ROUND IN INDUSTRIAL CAGE LOOP COMPLETED

Reynolds Wire and Bales & Wilhelm Teams Tie For Lead

Industrial League Standing			
	W.	L.	Pct.
Reynolds Wire Co.	4	1	.800
Bales & Wilhelm	4	1	.800
N. U. Co.	3	2	.600
Merchants	2	2	.400
Amer. Cab Co.	2	3	.400
Brown Shoe Co.	0	5	.000

The teams of the Industrial Basketball League played the last games of the first round, of their series schedule in the new high school gymnasium last evening. A large and enthusiastic gathering of fans were on hand to watch the Reynolds Wire Co., and the Bales and Wilhelm defeat their respective rivals and retain their positions for a tie for first place in the league.

The Merchants met the Brown Shoe Co., five and caused them to continue to hold down the cellar position of the league. The Merchants were very slow in getting started but soon swung into form and by means of the Pearlman to Pitney combination were able to run up a score of 12 to 2 at the end of the first period. Both of the Shoe Co. five's points being made on free throws. Not being satisfied with the lead established in the first half and lead by Pearlman and Pitney the Merchants started what might be called a brutal assault on the shoemakers' aggregation. Pitney with the 23 points he made last night still lets him retain the title of high point man of the league with a total of 66 points. He shoots baskets from all angles and seems unable to miss the hoop. Welch saved the Brown Shoe Co. from utter degradation by sinking four sensational shots for his team as well as one free throw. The final score was 34 to 13 in favor of the Merchants. The teams lined up as follows:

Merchants—Suter and Pitney, forwards; Pearlman and Wilson, centers; Miller, Kinn, and Wadsworth, guards.

Brown Shoe Co.—Kuhn, Carlson, and Burch, forwards; Harms and Hurless, centers; Welch, Barnfield and Warren, guards.

Referee: Guy Temple of Moline.

I. N. U. Co. are Losers

The Bales and Wilhelm team playing a fast hard game, defeated the Illinois Northern Utilities Co. to the tune of 19 to 5. Many thought that after the I. N. U. Co. five's performance against the Reynolds Wire team they would easily come out the victors but the Bales and Wilhelm quintet playing bang up basketball against them were able to come out the winners. At the end of the first half the score was 4 to 3 in favor of the Bales and Wilhelm team but led by Kennedy in the final period, who alone accounts for the caging of five pretty baskets, they were able to run the score up to the final count of 19 to 5. The I. N. U. made all their points on free throws none of the players being able to locate the hoop for a single basket. The teams lined up as follows:

Bales & Wilhelm—Roundy, Place, Jones and Padgett, forwards; Kennedy, center; Whitcomb, Vaughn, and Hayes, guards.

I. N. U. Co.—Krug and Schertner, forwards; Lebre, center; Hilliker and Florence, guards.

Wiremakers Win

The Reynolds Wire team showed they consisted of championship material by defeating a hard fighting, never say die American Body and

SHE'S GETTING THINNER EVERY DAY

Her Fat is Melting Fast Away

All over the world Kruschen Salts is appealing to girls and women who strive for an attractive, free from fat figure that cannot fail to win admiration.

Here's the recipe that banishes fat and brings into blossom all the natural attractiveness that every woman possesses.

Every morning take one-half teaspoon of Kruschen Salts in a glass of hot water before breakfast.

Be sure and do this every morning for "It's the little daily dose that takes off the fat." Don't miss a morning.

The Kruschen habit means that every particle of poisonous waste matter and harmful acids and gases are expelled from the system.

At the same time the stomach, liver, kidneys and bowels are toned up and the pure, fresh blood containing Nature's six life-giving salts are carried to every organ, gland, nerve and fibre of the body and this is followed by "that Kruschen feeling" of energetic health and activity that is reflected in bright eyes, clear skin, cheerful vivacity and charming figure.

Get an 85c bottle of Kruschen Salts at Sterling's Pharmacy or any drug store (lasts 4 weeks) with the distinct understanding that you must be satisfied with results or money back.

One Montana woman lost 19 pounds of fat in 4 weeks and feels better than she has for years.—Adv.

Cab five. It was a hotly contested game but Reynolds Wire finally came out the winner by the score of 18 to 10. Johnson played a great game for the winners by making 13 of their 18 points. He has climbed to the position of second highest point man of the league with a total of 48 points. Joyce made the other five points caging two difficult baskets and one free throw. Wetzel was an outstanding player for his team making 6 of his teams 10 points and Underwood the other four. The teams lined up as follows:

Reynolds Wire Co.: Johnson, and Six, forwards; Joyce, center; Dunbar, and Telkamp, guards.

American Body & Cab Company: Cowley, Slothower, and Underwood, forwards; Wetzel, center; Bremer and Stitzel, guards.

The Dixon High School Basketball squads meet Belvidere tomorrow evening in the new gymnasium for their second conference game of the season. These will without a doubt be two very difficult contests. Belvidere defeated the Sterling aggregation last week, by the score of 20 to 10 but Coach Sharpe and Assistant Coach Lindell have been putting their charges through a hard week of practice and the fans can be assured of a fight from the beginning whistle to the final gun. At 7:15 o'clock the Dixon Lights will clash with the Belvidere Lights in the curtain raising performance. This contest will be followed by the main event of the evening when the Dixon Heavies meet the Belvidere Heavies. The probable Dixon lineup are as follows:

Dixon Lights: Hilliker, F. Cortright, Carlson, F. Lebre, Kennedy, C. Vorhe, Brown, G. Hasselberg, Wolfe, G. Tetter.

Referee: Geo. Kitteringham of Rochelle.

Umpire: E. Dahlquest of Rockford.

With the Cagers

Minneapolis, Minn., Jan. 16.—(AP)—With the University of Minnesota making last minute efforts to keep him as head football coach, Dr. Clarence W. Spears started today for the west with the offer of an \$11,500 annual salary as gridiron coach at the University of Oregon awaiting him.

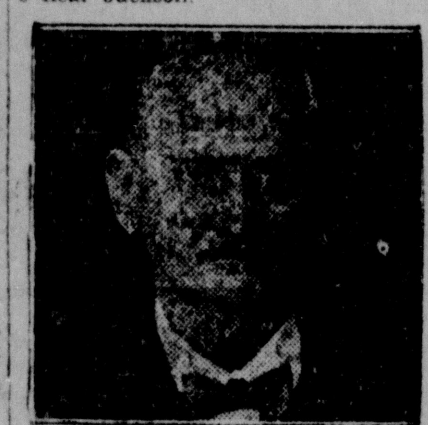

Dr. Spears was elected coach at Oregon at a meeting of the institution's executive council at Eugene last night. He will meet Dr. Arnold Bennett Hall, president of the Oregon school, at Missoula, Mont., Friday to discuss final acceptance.

Coach Spears has been dissatisfied with the management of athletic affairs at Minnesota, especially over financial matters relating to assistant coaches and their salaries. The Gopher mentor receives \$7,500 a year at Minnesota and devotes all his

DIETICIAN ADDS WORDS OF PRAISE

"Since taking Kavatore I feel as though I were twenty years younger," Jackson man says.

Mr. Rechten's experience with Kavatore is of unusual interest due to the fact that he is a retired dietitian, in which capacity he naturally spent years of thought and study on the subject of foods and their effect on the human system. "I have been troubled for years by indigestion, kidney trouble and neuritis," said Mr. Rechten, who resides on R. F. D. No. 6 near Jackson.

PAUL RECHTEN.

Photo by Tray.

"I had hardly no appetite and when I did eat anything it seemed as though it soured and fermented in my stomach and came up in my throat like vinegar. Gas bloated me and caused intense pain. Then I had a constantly dull ache across the small of my back and sharp pains shot across my kidneys every time I stooped over. I was also troubled by pains right across my shoulders that caused me much agony. Of course this condition of my system made me very nervous and restless. I used everything and anything that my friends told me about—but nothing gave me any noticeable relief until I started to use Kavatore. I have used six bottles now and I feel, though I were 20 years younger. I eat and sleep like a new man. The pains across my back and shoulders have disappeared and I hope this statement is the means of Kavatore helping other folks as it did me."

The Kavatore man is at the FORD HOPKINS DRUG CO., where he is daily meeting the public and personally explaining the merits of this great preparation. The famous Kavatore figure (an ingenious human torso showing every organ of the body) is used in this demonstration and everyone is cordially invited to see and study this figure, an experience which will be interesting and instructive.

FORD HOPKINS CO.
World's Finest Drug
Stores

time to football. At Oregon, in addition to the salary increase, he would be permitted to practice medicine in the off-football season.

The Senate athletic committee, governing body of sports at the Gopher institution, held a hastily called meeting late yesterday to discuss the situation with Dr. Spears. While the meeting was behind closed doors, it is understood that Spears aired his grievances fully and presented conditions under which he might remain here.

Expect Landis To Stop Great Shires

Chicago, Jan. 16.—(AP)—Organized baseball's first move to prohibit its players from engaging in professional boxing contests is expected Saturday when Commissioner Kenesaw M. Landis confers with Charles Arthur (The Great) Shires.

While Commissioner Landis has refused to discuss the question, it is known, he has been displeased with the professional boxing ventures of Shires and other baseball players this winter and will back up his displeasure by demanding a halt immediately.

Shires has intimated he will take the fatherly but stern advice Commissioner Landis is certain to give him Saturday and then forget boxing for baseball.

After his conference with Landis, if all goes well, Shires will apply for reinstatement to the White Sox, who suspended him last season because of his second fist fight with the then manager, "Lena" Blackburne.

Simmons Batted In Most Runs In Year

New York, Jan. 16.—(UP)—Al Simmons, Philadelphia Athletics outfielder, led the American League in batting in runs during the 1929 season, while his teammates, Walter Bishop and Jimmy Foxx annexed the honors for the most bases on balls and strike outs.

Simmons accounted for 157 of the 901 Athletic runs, according to the official American League miscellaneous averages released today.

Max Bishop, Athletic second baseman, drew 128 passes in 128 games. Joe Sewell tied his own world's record of four strike outs in 132 games. Club records show St. Louis leading in bases on balls with 563 and the New York Yankees leading in strike outs with 518.

Delaney Forced To Quit Fighting

Bridgeport, Conn., Jan. 16.—(AP)—Jack Delaney, retired light heavyweight champion of the world, has fought his last fight.

Dr. George W. Hawley, bone specialist, wrote "finis" to Delaney's ring career today when he declared that an injury to the right arm which has bothered the former champion for two years threatened to cripple the arm permanently, unless Delaney abandons boxing.

Delaney, with tears in his eyes, heard the doctor's dictum after an X-ray examination.

CUBAN GIVEN DRAW AGAINST ROCKFORD BOY

Mandell Outweighted In Scrap Last Eve in Miami, Fla.

Miami Beach, Fla., Jan. 16.—(AP)—A ten-round non-title combat in which the ramming fists of Young Manuel Quintero held Champion Sammy Mandell of Rockford to a draw put the young Cuban left hander near the front of the lightweight boxing picture today.

Quintero's puzzling southpaw fighting style won him an even break in his engagement with the titleholder here last night. Promoter G. R. K. Carter said the inaugural of the winter fight season in the Miami arena attracted 11,000 persons, who paid \$32,000 to witness the match. Mandell's contract called for \$10,000, he added, while Quintero worked on a 12½ percentage basis with a small guarantee.

Nursing a cut over his left eye, which required two stitches, Mandell said "what the referee says goes" in commenting on the decision which was rendered by Billy Haack of Memphis, who officiated without the aid of judges. Quintero suffered small cuts about the mouth.

Mandell concentrated throughout the bout on infighting while the Cuban employed a long swinging left hand with an occasional right handed punch.

Quintero weighed 139½, and Mandell 137, but the champion waived the extra poundage before the start of the fight.

Jack Sharkey, who is to fight Phil Scott in Miami on Feb. 27; Babe Ruth, former Governor Alfred E. Smith and other notables were at the ringside.

George Long, 77, Turf Leader Dead

Louisville, Ky., Jan. 16.—(UP)—Kentucky turf fans today were mourning the death of George J. Long, 77, race horse owner whose horses twice won the Kentucky Derby. Long dropped dead at his office here during a business conference yesterday.

Long, for many years a member of the State Racing Commission, first won the Derby honors with Azar in 1892 and repeated in 1906 when Sir Huon came in first. He sold the majority of horses in his stable about ten years ago.

By Associated Press

Miami Beach, Fla.—Sammy Mandell, Rockford, Ill., lightweight champion, and Manuel Quintero, Cuba, drew (10) non title; Sara Crosby, Columbia, Ga., and Tommy Jones, Macon, drew (10).

During the early part of the 16th century, Spain was without a rival in the exploration of America.

OVER 17 MILLION JARS USED YEARLY

Ruth's \$75,000 Con- tract Mailed To Him

New York, Jan. 16.—(AP)—The contract mailed to Babe Ruth by the New York Yankees calls for a salary of \$75,000 a year for a two year term. These were the terms the Babe declined recently before he left for Florida, holding out for \$85,000.

The contract was sent as a matter of form along with those of 30 other Yankee players. Ben Chapman already has signed his 1930 contract while Lou Gehrig, Henry Johnson and George Pipgras have holdover contracts.

SPORT BRIEFS

BY UNITED PRESS

CHICAGO—Contracts for the 1930 playing season were mailed yesterday to members of the Chicago Cubs National League pennant winning aggregation. Club officials said no holdouts were expected.

ROCK ISLAND—A new plan of basketball play, devised by Coach Justin Barry of the University of Southern California, which calls for no tip-off at center will be given a tryout when the Augustana and Armour Tech quintets clash. Play is

started from out of bounds. Held balls are not affected by the new plan which is being considered by the National Rules Committee.

Braddock To Join Heavies After Bout

Chicago, Jan. 16.—(AP)—James J. Braddock, rugged New Jersey lightweight, will join the heavyweights ranks after his 10 round engagement with Leo Lomski, the Aberdeen Assassin, at the Chicago Coliseum tomorrow night.

Braddock has been having difficulty keeping his weight down for several months.

Seven Endangered By Bomb Explosion

St. Louis, Jan. 15.—(UP)—Explosion of a dynamite bomb endangered the lives of a family of seven persons, shattered a wooden rear porch and partially wrecked the rear wall of the one-story frame house of Hyman Ostftein last night.

Ostftein, his wife, their two sons and two daughters, Esther Ostftein and Mrs. Elizabeth Kettis and an infant son of Mrs. Kettis, were asleep when the blast occurred. Although thrown from their beds, they escaped injury.

ROESSLER & TEICH - OWNERS AND MANAGERS

STOPS THAT TOUGH HANG-ON COUGH THAT RACKS YOUR WHOLE BODY

For simple coughs any simple sweet sugary cough syrup will probably do.

But when you want to throw out of your system one of those old timers, that simply won't be conquered, but lingers on and on causing sleepless nights and days of torment then you've just got to have a real cough medicine.

Then you must ask your druggist for a bottle of Broncholine Emulsion for the harder and tougher and tighter they come the more joy Broncholine gets in knocking them out.

Broncholine isn't a cheap cough conqueror, mind you, for first raters are never cheap. But if you are one of the unlucky ones that a persistent

Par value of securities deposited with Auditor of Public Accounts, Springfield, Illinois, as required by law, to secure Trust Deposits 50,000.00 State of Illinois, County of Lee, ss:

J. B. Lennon, Vice President, one of the managing officers, and W. E. Trein and A. P. Armstrong, two of the directors of the Dixon National Bank, a corporation of the State of Illinois, being severally duly sworn, each upon his oath states:

That he makes this affidavit for the purpose of complying with the requirements of Sections 9 and 10 of an Act of the General Assembly of the State of Illinois, entitled "An Act to Provide for and Regulate the Administration of Trusts, by Trust Companies."

FARMER SHOULD KEEP ACCOUNTS TO KNOW STATUS

Many Farmers Unable to
Tell If They Are
Making Money

Urbana, Ill., Jan. 16—(AP)—Neighbors who say that Jones is a good farmer while Smith is not should remember that "you can't tell by looking at a frog how far it will jump." This was the advice given today by P. E. Johnston, of the farm organization and management department, before the farm management sessions of the thirty-third annual Farm and Home Week of the College of Agriculture, University of Illinois.

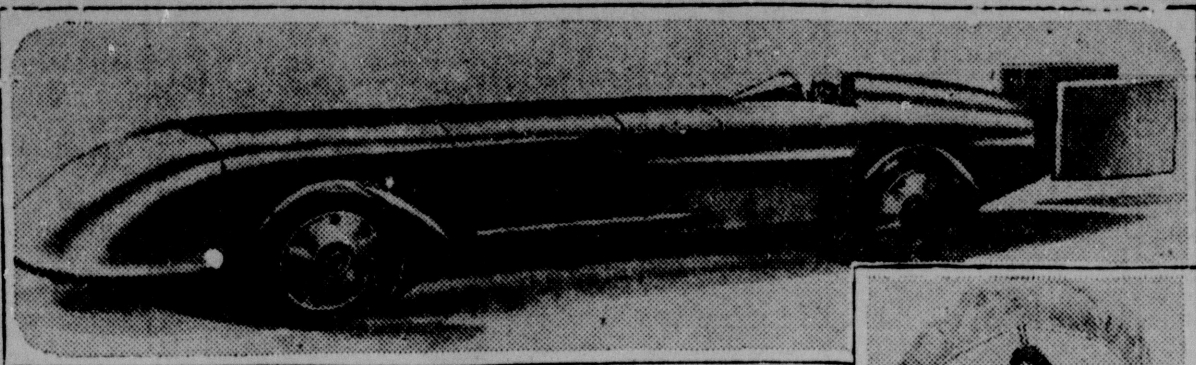

Profitableness of a farm as a business can not be judged by outward appearances, Johnston pointed out. Studies made on thousands of farms in the state prove conclusively that the farmer himself can not tell whether he is making or losing money without accurate records of his business. Neither can he tell why he is making or losing unless he has such records, Johnston added.

"Illinois farmers who have followed farm accounts are fairly familiar with the factors which seem to be most important in determining farm profits. These factors include crop yields, the acreage of land in high profit crops, amount of livestock, livestock efficiency, volume of business, man labor efficiency, horse labor efficiency and selected items of expense."

The farmer who gets the highest prices for his products is not always the one who makes the most money, R. H. Wilcox, of the farm organization and management department, pointed out. Differences in farm incomes from one farm to another in the same year are caused principally by factors which affect the amount of produce sold and its cost rather than the prices received, he explained.

"Yields of crops and the productivity of livestock are by far the most important factors affecting farm incomes. Cost studies have shown that as the yields of crops increase the cost of producing a bushel or ton of the crop declines. In the corn counties of Illinois a 35-bushel-

To Seek New Speed Record in Florida

This strange, torpeda-shaped automobile is to be sent whirling over the smooth sands at Daytona Beach, Fla., next spring, in quest of a new world's speed record. It's being built in England for Kaye Don, right, noted British race driver. Note how the long car, shown above, is literally built around the driver, with tremendous space for its powerful engines. The aerial rudder at the rear is designed to keep the car on its course at high speeds.

an-acre corn crop costs 70 to 80 cents a bushel, while 55-bushel yields cost 40 or 50 cents a bushel. In the Chicago milk area a cow giving 9,000 pounds of milk a year has a feed cost of 90 cents a hundred pounds of milk, but a cow giving only 7,000 pounds of milk takes \$1.30 worth of feed to make a hundred pounds of milk.

"In crop production, the land charge, including interest on the capital invested in land and the taxes, makes up approximately one-half of the total cost of crops. This further emphasizes the importance of the productivity of the land as the important factor in net farm incomes."

"The second largest group of items in crop costs is the one which includes man and horse labor costs. This emphasizes the necessity of making good use of men and horses through the use of rotation that demand labor rather than uniformly through the year and of having some means of marketing available labor in the winter by livestock or other means. Machinery is as important an expense with some crops as either man or horse labor."

"Feed stands out as the important factor in the cost of producing livestock and live stock products. However, feed is only 60 percent of the dairy costs while it is 85 per cent of the cost of producing pork."

Man labor also stands out as important among livestock expenses. Very little horse labor is required in livestock production."

WEST BROOKLYN

West Brooklyn—Harry Hackman of Scarborough called on friends and acquaintances Friday.

Mr. and Mrs. Louis Untz were here from Mendota Saturday and called at the home of his parents, Mr. and Mrs. John Untz.

Mr. and Mrs. Henry Lipps celebrated their silver wedding anniversary Saturday. A short service was held in St. Mary's church in the morning and a banquet was served at the home at noon for the immediate relatives and friends. The daughter, Sister Mary Henry of St. Francis convent at Milwaukee, Wis., was home for the occasion.

Herold Merschon was here from near Franklin Grove Tuesday and called on friends and relatives.

George Smith was in town Wednesday making arrangements for holding a reduction sale at the Conibear farm late this month. George is going to move to his own place.

BEWARE THE COUGH FROM COLDS THAT HANG ON

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing

elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

CREOMULSION FOR THE COUGH FROM COLDS THAT HANG ON

DOLLAR CAR WASHING

Keep the car clean and save money.

In addition to our regular washing service we are now equipped to give Special Prices on Quick Service Washing, as follows:

Compton Wednesday and spent the day at the home of Mrs. Kathryn Chaon.

John Derr received much favorable comment for the fine work he did in clearing a path through the snow. If it wasn't for him the cars never would have been able to get to town.

C. W. Herrmann was here from south of Steward Tuesday posting notices of his sale.

Mr. and Mrs. Seymour Vickrey motored to Princeton Tuesday where they attended the funeral services of an uncle.

Mr. and Mrs. Joseph P. Sorigerth moved their household effects to Belvidere Wednesday, where they will make their home for the present. Joe has been retained as a handy man about the hospital, and we hope that they will find their new surroundings pleasing and prosperous.

Mr. and Mrs. Eugene F. Henry motored to Dixon Tuesday where they called on friends.

H. S. Strawbridge and son Rudolph were here from the vicinity of Ashton Wednesday calling on business friends.

The dance at the school hall Tuesday evening was well attended and everyone had a fine time.

Frank Schweiger completely wrecked his sedan Tuesday evening while returning home from town. The car started skidding while going down the Brooklyn hill and on account of the icy roads he was unable to get the car under control again. He finally ended up in the ditch and was fortunate that he was not injured.

Arthur Montavon shelled and delivered his new crop of corn to market Wednesday.

The local farm loan association held their annual meeting and election held Monday afternoon. George J. Thier, vice president; Oliver L. Gehant, secretary-treasurer; John Dinges, F. H. Dehotal, W. A. Halbmaier, George Montavon and George Thier were elected directors.

The association's books show a good year and the men feel rather proud of the fact that they were able to help so many of their fellow farmers as such a saving in interest.

The funeral services of Christina Simmons was held from the local Methodist church Saturday afternoon with Rev. Father Healey officiating. The pall bearers were chosen from life long friends of the deceased and the bereaved husband and were as follows: Raymond Maier, James Phean, Arthur Ziebarth, Albert Gehant, Anthony Halbmaier and Clarence Michel. The church was filled with friends and relatives who had gathered to pay their last respects to the deceased as well as offering sympathy to those left behind.

Mrs. William Chaon was here from

Bodmer and had been making her home with her brother since last summer when she returned with him from Portsmouth, Ohio. Death had been caused by an attack of the heart and the members of the Bodmer family have the sympathy of their many friends.

John Longbein drove to Paw Paw Monday where he called on friends. Many of our citizens drove to the Granville Miller farm Sunday morning where they had been called to assist in fighting a fire which had originated in Duck's car and not only destroyed the sedan but the barn in which it was housed.

Fred Montavon drove to Chicago Wednesday with a truckload of livestock.

The ladies of the domestic science club gathered at the home of Mrs. Mary Bernardin Wednesday morning and spent the day sewing. The men-folks were invited to supper in the evening and then card playing held sway for the remainder of the evening and everyone had a fine time.

Mrs. Jacob Kromm of Dixon is here and is spending a week visiting at the home of Mr. and Mrs. Edward Henry.

JORDAN NEWS

Jordan—Paul O'Kane is staying at the C. A. Straka home and going back and forth to Sterling with Robert Foltz where he attends Browns Business College.

Mrs. William Schwitters is suffering with a felon on her hand.

Mrs. Helen Stein and three children of Mt. Carroll are staying with her sister Mrs. Orville Allen. Mrs.

Goitre Not a Disease

Milwaukee Doctor Makes Remarkable Discovery.

Milwaukee, Wis. — It has been brought to light by scientific research that goitre is not a disease and is not to be treated as such. Dr. A. A. Rock, Dept. P5, Box 737, Milwaukee Wis., a prominent goitre specialist for over 24 years, has perfected a different method of treatment for his patients that has proved remarkably successful. This same method is now being used for a home treatment of goitre cases all over the country with astonishing results. The Doctor states that goitre is a condition which grows worse with neglect and recommends immediate attention no matter how small the growth may appear. He strongly opposes needless operations.

Dr. Rock is the author of a book that tells in a simple way about treating goitre at home. He has published this book at his own expense and will send a copy free to anyone interested. Write him today.—Adv.

A GLORIFIED CLEAR SKIN

A clear, smooth, lovely skin enhances personal attractiveness! More happiness and friends may depend upon it.

The way to the skin is through the blood. Rich, red, healthy blood nourishes the body and aids in protecting it against infection and disease.

When you take S.S.S. to get rid of these outside blemishes you are building up the system to ward off grave diseases.

S.S.S.

© S.S.S. Co.

If you are one of the embarrassed—and men are not exceptions—with skin blemishes that linger, and sometimes leave scars, you will want to possess body power to clear up your skin.

S.S.S. will help Nature give you this power. Internal healthfulness will then reflect in your skin a natural loveliness—a skin glorified.

Millions of people have taken advantage of the wonderful medicinal properties in S.S.S. It gives to Nature what it needs to build you up so that your system may throw off the cause.

When your system is filled with rich, red blood, the body's

power of resistance to infection and disease is raised. Your appetite should improve. Firm flesh should take the place of that which was once flabby. You should sleep soundly. Your nerves become steady.

Take S.S.S. daily at mealtime. It promotes healthy body building. Seek energy, vitality and a clear skin through the great blood tonic which is made from strictly fresh vegetable drugs and has stood the test for over 100 years.

All good drug stores sell S.S.S. in two sizes. Ask for the larger size. It is more economical.

A Clear Skin Comes From Within

ERRORGRAMS

Today's Scrambled Word

MTRLSEUB

Found in the buffet and on the stage

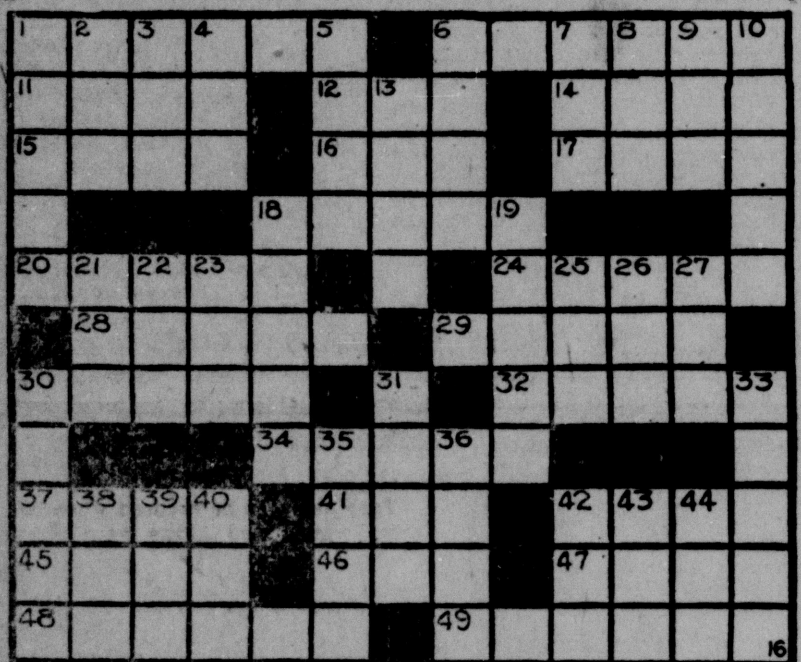

(Copyright, 1930, NEA Service, Inc.)

There are at least four mistakes in the above picture. They may pertain to grammar, history, etiquette, drawing or whatnot. See if you can find them. Then look at the scrambled word below—and unscramble it, by switching the letters around. Grade yourself 20 for each of the mistakes you find, and 20 for the word if you unscramble it. Tomorrow we'll explain the mistakes and tell you the word. Then you can see how near a hundred you bat.

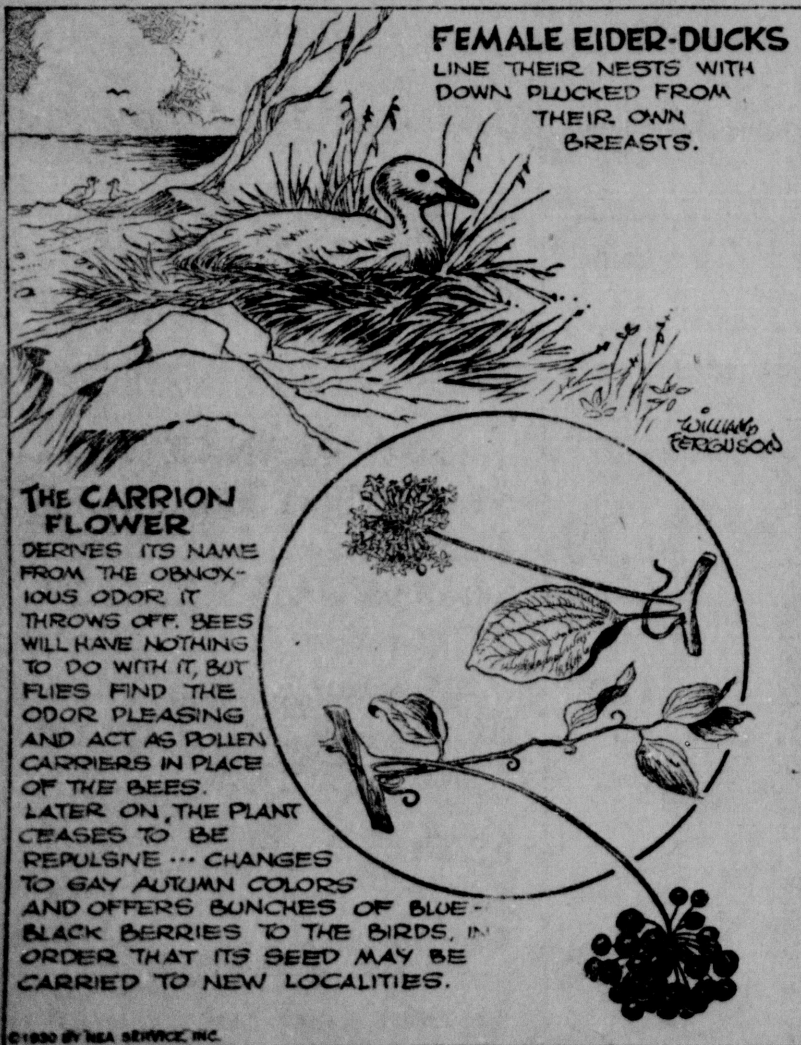

WEDNESDAY'S CORRECTIONS

(1) The sun should be practically in the center of the earth's orbit. (2) The man is wrong in saying, "In winter the North Pole tilts towards the sun; it tilts away from it." (3) In the picture, the earth should be dark on the side away from the sun. (4) In winter the earth is at its nearest point to the sun, not its farthest. (5) The scrambled word is Bullion.

say 15 have died and more than 100 are ill with typhoid fever.

Berlin—Four killed, many injured in Communist clashes with police in various German towns.

Rome—Prince Humbert and bride preside at International Military Sleepchase.

ILLINOIS: Urbana—The Illinois Home Bureau Federation attracted 150 homemakers to its two day meeting held in connection with the Farm and Home Week at the University of Illinois College of Agriculture.

Champaign—August Gordon, 73, farmer living near Broadlands, was fatally hurt while aiding his son back an automobile out of a garage.

The son was driving. The brakes of the car, which had been frozen, are believed to have released suddenly.

Urbana—Sharp eyes of guards frustrated what authorities believe to be the third attempt within 12 days at a jail delivery. Jailer John McKinney found three iron bars had been sawed through and as in previous futile delivery plots, men held for trial for the holdup of the Henry Harris home the night of the Illinois-Army football game, had access to the bars.

Galesburg—Fourteen acres, held by Knox College since 1838, has been acquired by the Chicago, Burlington & Quincy Railroad for a \$5,000,000 improvement project here.

Chicago—A restaurant fight two doors from the Independent State Bank two weeks ago was blamed for the closing of the institution. Parking of a police patrol in front of the bank, officials said, gave rise to rumors of a run and then removal of \$160,000 in deposits.

Springfield—Charles J. Peters has been promoted to be Chief Clerk of the Automobile Division at Chicago. Secretary of State William Stratton announced. Dr. A. J. Erickson of Toulon has been appointed tuberculosis inspector in the State Department of Agriculture.

Danville—Illinois Highway No. 9 has been closed between Rankin and Hoopeson by backwash from the Wabash river flood stages.

Chicago—Chicago's policemen have been advised that no pay checks will be available today and that salaries for the last two weeks will not be disbursed until February 5.

Denver—Rocky Mountain region shivers as temperatures range from few degrees above zero to 28 below.

San Francisco—Many snowbound on Pacific slope.

Great Falls, Mont.—Only one of seven Army plane succeeds in attempt to cross Rockies in bad weather.

New York—Seven railroad coal barges sunk by collision with freighter.

Dixon, Ky.—Bodies of two men recovered from coal mine sealed after explosion Saturday.

FOREIGN: S. S. George Washington—Senators Reed and Robinson support Stimson's view that Anglo-Japanese and Franco-Italian problems do not concern Americans at naval conference.

London—Dispatches tell of wrong drug in eye test blinding 40 children at clinic in Kesarian, near Athens.

Bucharest—Reports from Braila

ONE EUROPEAN NATION IS DRY; 11 WIDE OPEN

A Survey of 22 Countries Shows Four Local Option Lands, 6 Regulated Sale

BY STEWART BROWN (United Press Staff Correspondent) PARIS.—(UP)—Only one nation of Europe—Finland—has a full prohibition law similar to that enacted in the United States. Six other nations have stringent regulations, four have local option and 11 have almost no restrictions, a survey of 22 European countries tried prohibition are principally shows. The countries which have among the northern group and one reason advanced was that those countries had a higher level of drunkenness which provided a good field for temperance campaigns. The countries which have some form of stringent regulation of the sale of liquor are, in addition to Finland, Great Britain, Belgium, Sweden, Estonia, Latvia and Italy. The six employ different means of regulating liquor consumption and any list of stringent methods must be arbitrary depending upon interpretation of the laws.

Latvia Fight Prohibition Among the nations without or almost without regulations are France, Spain, Portugal, Germany, Czechoslovakia, Austria, Hungary, Yugoslavia, Holland, Greece and Switzerland. Those countries are either Latin or Germanic, both races being chiefly wine and beer drinking peoples. Great quantities of wine and beer are consumed in those countries but temperance statisticians say their records tend towards sobriety.

The Latin countries, especially France, Spain and Portugal, present a problem to temperance societies because they consume and export large quantities of spirits and have constantly fought prohibition in other countries. They are partly responsible for the lessening of prohibition restrictions in Norway and Iceland. Finland, on the Arctic sea, was the first country to adopt prohibition. The law was enacted 12 years before the United States went dry but was quashed as unfavorable to the European wine growers by the Grand Duke of Russia. In 1917 Finland, as an independent country, again passed a dry law which is still in effect. The enforcement has not been perfect and smuggling still exists.

Belgium's Law Belgium has prohibited drinking in public houses of any liquor more than 18 per cent alcohol since 1919. Belgians may purchase liquor in not less than two quart lots for home consumption. The measure applies to all bars, cafes, hotels, restaurants, stores, trains, boats and the streets. No bottle may be uncorked outside of the purchaser's home. There are severe penalties for violators and the law is carried out strictly and there are few violations, the most impartial observers agree. A certain latitude in interpretation of law makes it possible to sell liquor by the glass in private clubs and there are many of these clubs although supporters of the law maintain that workmen drink less than before 1919 and crimes due to drunkenness have decreased one-third, police reported.

Norway Repeals Law The widely-known Bratt system is employed in Sweden, where only adults possessing Bratt cards to show they are temperate in habits may purchase liquor. Only home consumption is permitted. The government has had to contend with much smuggling but has abolished saloons and decreased the national drink bill. Norway had full prohibition on 1919 but repealed it in 1926 because of commercial pressure from wine-growing countries who retaliated by refusing to buy Norwegian products and also because of smuggling and difficulty of enforcement. The new law, permitting local option, was said to be the most vigorous in Europe. It permitted only those cities where spirits were sold before the war to re-introduce liquor sale.

Denmark has restricted the consumption of liquors through high duties and local option, introduced in 1925. All Baltic Sea countries have an agreement to suppress smuggling.

Modified in Iceland Iceland, an independent country under the King of Denmark, established full prohibition in 1915 but Spanish wines because Spain had modified it later to permit sale of threatened to restrict the sale of Iceland's fish. The country still has full prohibition of sale of spirits.

Russia has a state monopoly on production of vodka but no restrictions. The government permits local option, which has not been used to any great extent. Poland voted for local option in 1921 and the system has been fairly successful. The president of Czechoslovakia is a teetotaler but there are no restrictions on liquor in the country. Yugoslavia has no stringent liquor regulations and there has been little agitation for prohibition in Austria, Germany, Hungary or Holland. Italy's only restriction is a fascist measure requiring early night closing of bars and cafes and limitation of the number of licenses houses. Spain

Relief from Gas Stomach Pains Dizziness The doctors tell us that 90 per cent of all sickness is due to stomach and bowel troubles. You can't be well if your digestion is bad; you are likely to get sick unless you relish food and digest it properly. Tanlac has a wonderful record as a relief from digestive troubles, even those of years' standing. Local people, many of whom you know, are highly endorsing Tanlac. For example, Mrs. Ellen White says: "For years I suffered from indigestion. I got no relief from anything until I took Tanlac. After my fourth bottle, I feel like a new person and have a fine appetite."

If you suffer from gas, pains in the stomach or bowels, dizziness, nausea, constipation, or torpid liver; if you have no appetite, can't sleep and are nervous and all run down, you need Tanlac. It is good, pure medicine, made of roots, herbs and barks. Get a bottle from your druggist today. Money back if it doesn't help you. Accept no substitute.

Movie "Death Plane" Salvaged

A tangled mass of wreckage, one of the two planes which crashed in mid-air over the Pacific ocean near Los Angeles and killed 10 men, including Kenneth Hawks, noted movie producer, is pictured here as it finally was raised from the ocean floor after a long battle by salvagers. No bodies were found in this plane.

to be the most vigorous in Europe. It permitted only those cities where spirits were sold before the war to re-introduce liquor sale.

Estonia, on the Baltic Sea, first tried the Swedish card system but abandoned it in favor of strict local option which has proved satisfactory in the estimate of prohibitionists. Its neighbor, Latvia, has only a few restrictive measures, including the closing of all bars from Saturday noon until Monday morning, materially decreasing alcohol consumption.

Denmark has restricted the consumption of liquors through high duties and local option, introduced in 1925. All Baltic Sea countries have an agreement to suppress smuggling.

Modified in Iceland Iceland, an independent country under the King of Denmark, established full prohibition in 1915 but Spanish wines because Spain had modified it later to permit sale of threatened to restrict the sale of Iceland's fish. The country still has full prohibition of sale of spirits.

Russia has a state monopoly on production of vodka but no restrictions. The government permits local option, which has not been used to any great extent. Evening—Health Play, "Sells Health-O Circus," by school children and directed by State Board of Health. Speaker—Sam Crabtree of Chicago. Address—"Hooked Rugs," Mrs. J. L. Murray, Bloomington, Ill. Rochelle's newly organized St. Patrick's parish basketball team will meet the St. Mary's team of Dixon in the new St. Patrick's school gym here, Friday evening at 7:30 P. M. Rochelle will probably start Allen or Berscheid at left forward, Whetson or Phee at right forward, Sullivan or Whetson at center, Schade and Kuelgen at guards. The captain will be named before the opening of the game. Vincent Carney is director of athletics and Elmer Davis, Jr., coach of the Green Shamrocks of Rochelle. The public is cordially invited to attend.

Mrs. Leo Herrmann is the new coach of the girls' basketball teams of St. Patrick's parish. Practice will be resumed Friday evening at 7:45. In the city bowling league the Whippets are in first place in "A" League with the Chryslers trailing and Larson's Variety heads the "B" league with the Morgan Dyers in the cellar position. Thomas O'Neill's "Gas House Gang," are sporting snappy new broadcloth shirts advertising the Electrolux Refrigerators. William Halsey is captain. Eddie Slothower's Legionnaires will probably be the next to blossom out.

The Whippets bowled 2800 pins last Thursday evening, an average of 93.3 taking high average from the "Gas Co.," who formerly had a 930.66 average for three games.

The Legion won a close match from the Gas Co., last week by a margin of five points. The Chryslers had previously humbled the Legion boys by five points. Members of the Rochelle Garden club will meet Friday afternoon, January 17th at the home of Mrs. William Bouchard. Mrs. Adam Krug

The Corn Show, sponsored annually by the Rochelle Business and Professional Men, will be the feature opening event, Wednesday, January 22nd. A large entry of corn is expected and there will be an evening of entertainment free to all. The institute program presents an

ROCHELLE NEWS Rochelle—Plans are nearing completion for the Ogle County Farmers Institute to be held at Rochelle Township High School in conjunction with the Rochelle Annual Corn Show, Thursday, January 23 and Friday, January 24th. The arrangements are in charge of G. A. Lazier, vice president of the county organization assisted by Mr. Wehner, A. M. Guhl and Frank C. Zimmerman with Mrs. Orva Wright and Mrs. Fred Pierce in charge of the music and entertainment. The Household Science Department is in charge of Mrs. Lois Kingma, assisted by Mrs. Robert Talbot, Mrs. Walter Gale, Mrs. L. A. Countryman and Mrs. Franklin Ritchie.

The Corn Show, sponsored annually by the Rochelle Business and Professional Men, will be the feature opening event, Wednesday, January 22nd. A large entry of corn is expected and there will be an evening of entertainment free to all. The institute program presents an

ABE MARTIN

"Girls look lots better in the winter time than they used to in the ole sleigh-ridin' days o' runnin' noses an' crack-ed cheeks," sighed Tell Binkley when in a reminiscent mood today. Conscience is that invisible somethin' that warns us that we're either goin' to git poisoned or catch the dick-ens when we git home.

will lead the discussion on the topic, "Garden Pests." The Friendly Society will hold their annual meeting and election of officers on Monday, Jan. 20, at the home of Mrs. Elizabeth Hathaway. Alonzo Maginnis will entertain the pupils of his Sunday School class of

the Presbyterian church at a winter roast at Spring Lake Thursday. Miss Edna Birk of the township high school faculty, will study in Rome this summer. The choir of the Methodist church enjoyed a bob ride Tuesday evening. Commissioner Theodore Schade

has received word that his brother, George, who resides at Zel, S. Dak., is seriously ill.

George Sanders, a Civil War veteran residing near Rochelle, is ill. Mrs. Nelson Hayes is the first to report seeing a robin here. She saw the songster on Saturday, Jan. 11th. Funeral services for Peter Govig, 72, prominent local retired farmer, who died suddenly on Monday of a heart attack, will be held Thursday afternoon at the home, 514 First Avenue, at 2 o'clock. Rev. Lawrence, of Lehigh, will officiate. The deceased is survived by his wife, three sons, Lewis, Ernest of Aurora and Gertis of Rockford; and two daughters, Mrs. Harvey Biens, of Ottawa, and Mrs. Ida Johnston of Rochelle. Interment will be made in Lawnridge cemetery. Funeral services for Mrs. Lovina S. McHenry were held from the home of her son, Mayor W. B. McHenry, Monday afternoon at 2:30 in charge of Rev. F. A. Campbell with interment at Lawnridge cemetery.

Moline, Rock Island Stations Held Up

Moline, Ill., Jan. 15—(AP)—Two more of a series of several filling station robberies in Moline and Rock Island occurred last night when a station here and one in Rock Island were robbed of \$175. The robbers escaped in an automobile.

Husband Shot Self When Wife Suicided

Moline, Ill., Jan. 15—(AP)—Mrs. Charles Belowski, 36, is dead and her husband, 48, is dying as the result of a double shooting at Carbov Cliff, a village near here last night. Mrs. Belowski is said to have shot herself and the husband upon entering the house and finding his wife dying, turned the gun upon himself. According to police jealousy led to a prolonged quarrel shortly before the shooting.

Commute Sentences Life-For-Pinters

Lansing, Mich., Jan. 15—(AP)—Governor Fred W. Green today wrote the final chapter in Michigan's famous "life for a point liquor law" when he commuted the life sentences of five prohibition violators.

The commutations bring the sentences of the five to a term of 7 1/2 to 15 years to comply with the new amendment to the state criminal code. The five affected are Frank Baker, Muskegon; Mrs. Elma Mae Miller, Lansing; Alonzo Noyes, Ionia; Fred Plum, Lansing, and Tony Popish, Schoolcraft county.
